AVANTGARDE

AVANTGARDE KEYFACTS & FEATURES

LSS

Lumbar Spine Support
The newly designed LSS Backrest with a wider soft padded head cushion increase the relaxed sitting and lying comfort.

DSF

DuraLite Spacebox Frame
The new L- shaped structure offers the best possible function for small folding dimensions. It is ultra light and unbelievable strong.

DFG

Duralight folding gear
The folding gear is made of It guaranties an easy folding and unfolding process and offers a maximum of stability.

D3D

DuraDore 3D- fiber mesh cover
The 3D fibre structure is soft and the material is breathable which offers a perfect seating comfort in all weather conditions.
The "Aqaurinse Technology" of this new fibre let the rainwater move through the structure. The fabric dries instantly.

DPA

Duraprotect Armrest
The new ergonomically designed armrest made of Dura protect fibres is reinforced with a slide protector. It offers an easy change of seating positions and a long lasting durability.

The Avantgarde Series is the ultimate Technology Series of our Company.

For all products in the new developed range we combine modern design with the newest materials in fabric and metal.

We use our most advanced production technologies.

All metal parts are made of a new developed and patented structure.

The chairs are equipped with an ultra strong but superlight space box frame. The Avantgarde range introduces and combines the world exclusive Duralight frame, DuraDore 3D fibre mesh fabric and the brand new Duraprotect armrests to create the ultimate outdoor chair. It is a padded chair that is designed to be left out in any weather, to be lighter than all of its rivals and to last longer.

PERFORMANCE FA

PERFORMANCE KEYFACTS & FEATURES

LSS

Lumbar Spine Support

The newly designed LSS Backrest with a wider soft padded head cushion increase the relaxed sitting and lying comfort.

RPF

Reinforced Performance Frame

The rigid aluminum frame with 30% thicker walls makes the performance chairs almost indestructible.

SMA

Sliding Metal Armrest Adjuster

Due to the metal rails, the adjuster will not wear off even after years of use. It is very easy to adjust and extremely stable.

AFG

Aluminum Folding Gear

The folding gear is made of dycast aluminium which supports an easy folding and ultimate strength.

DuraMesh

DuraMesh Fabric

We reinforced the proven „Dura Mesh“ fabric again. Due to a new weave structure **we succeeded to add more fibres.** This increases the material strength and abrasion resistance enormous. The surface treatment makes the fabric totally impervious to rain and UV - irradiation.

This Series is the perfect range for all who look for the best balance of comfort, durability and quality. The reinforced “Performance” frame offers 30% more wall strength than standard products in the market.

Our metal slide armrest and the alu dycast folding gear make the chairs nearly unbreakable.

Your back will love the improved ergonomic backrest.

The ultra strong “DuraMesh” fabric offers the very best weather resistance and durability available today.

PRODUCTS FOR LIFETIME

PRI 201 PRIME

The improvement of a success story. We have managed to improve the best-selling luxury folding chair in recent years.

With the new higher, more comfortable backrest as well as the enhanced "DuraMesh" fabric have improved the best selling prime chair. It is now even more durable and comfortable than before making it the most comfortable and durable chair in its class.

Wide, strong, comfortable those are the facts that have made the Supreme chair so successful. To date, none was more stable and comfortable. However, with the PSU 201 we have gone a further step forward in terms of stability and comfort.

The higher backrest with wider cushion enhances comfort tremendously.

The reinforced "DuraMesh" fabric stands even the most extreme weights .

DuraGore

DuraDore Soft Touch
Skinfriendly, breathable, light,
fabric easy to clean and quick dry.

The new "Be Smart" camping range is our answer to the new requirements of camping. **It combines lightness, flexibility and comfort** with a high-end quality.

This series pays attention to all campers who look for light and space saving furniture.

The products offer ultimate comfort and our best value for money for the whole European Camping market.

Here we combine strong but lightweight frames with DuraDore Soft Touch - a skin friendly, breathable fabric. It is easy to clean, very resistant and with a low weight.

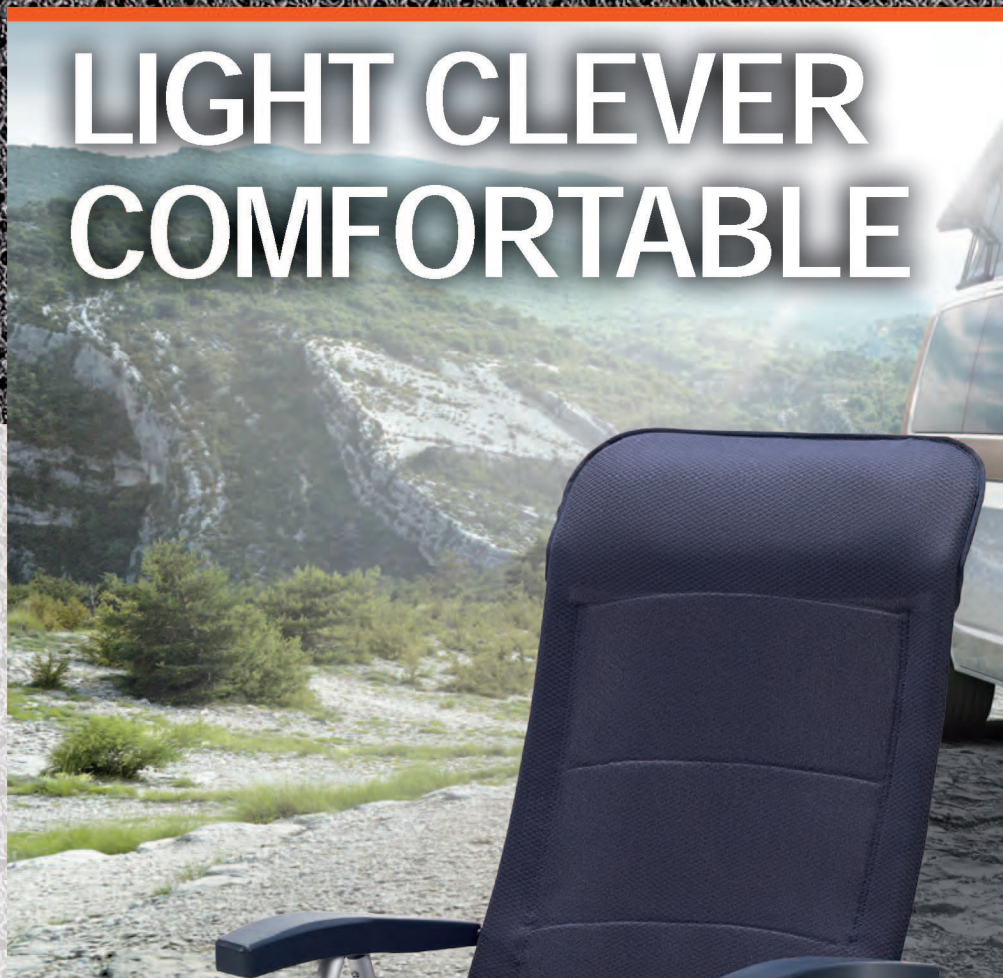

We achieved a unique durability and strength thanks to the selection of extraordinary base materials like NyloDur, DurAlloy and Aircolite. The clever combination of advanced materials, technics and our long experience in the production of high quality products make this series so exceptional.

SRH 301

SMART

LIGHT CLEVER COMFORTABLE

Wherever soft ground makes the use of a four-legged chair's difficult provides this chair with round tube frame clear advantages. Due to its low weight, it is the ideal companion for all who do not want to sacrifice comfort on the beach. It is the lightest and most flat folding version of our aluminum highback chairs.
