Air Full Awning

PLUTO

The Pluto is a traditionally styled full air awning. This is a true top of the range, luxury air awning with performance, style, classic looks and durability built in. This is a **full awning**, which means that it goes around the entire awning channel on your caravan. This gives it a stronger, more weather tight connection against your caravan and utilises 100% of the space against your caravan. It also ensures that all of the windows are free from obstruction.

It features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric that will last for years. The high performance coating on the fabric gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks. The **Advanced Air System** gives you single inflation from the start, ease of use and reliability.

You get **Super-tubes** which are larger, stronger and more rigid than its rivals. This allows the awning to have less beams making

the inside far more roomy and more aesthetically pleasing. The high specification bravo pump also makes it easier to inflate. There are no hidden extras here, you even get a veranda pole. It can also be extended with 1 or 2 annexes allowing you to increase the living or storage space if required.

The **removable front and side panels** make it easier to pick up and slide through your awning channel, helping to make this awning easier to erect. The front and side panels have large tinted windows giving excellent sun cover and every panel has a large double layered mesh window allowing you to have very high levels of airflow when the weather is nice. **Pano-view** gives you extra window area and greater, more panoramic views than all of its rivals and features maximum sized windows to give you the very best views. They go lower to the floor letting more light in adding that extra feeling of space and light all the time. The awning also features side doors which include an additional window panel, giving even more views and light in from the side.

Air
Porch Awning

VEGA

The Vega is a luxury modern porch air awning packed with everything you need, complete with extra features you'll just love and comes in two sizes (330 and 375 cm). It features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric that will last for years. The high performance coating on the fabric gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks.

The **removable front and side panels** make this easier to pick up and slide through your awning channel, helping to make this awning easier to erect. It also allows you to use the awning without the panels as a **premium air sun canopy**. The Vega also comes with **double beading** (both 4 and 6mm) so it can be used on a caravan or motor home/camper (height dependant).

You also have the option of a **clip in inner tent** or adding **optional annexes** giving more space and more options for expansion.

The doors feature a **full size window** giving you even more light and a full **'Pano View'** allowing you to see out from any direction. This un-rivalled view helps bring the outside in, giving you the very best of both no matter the weather. All the windows feature fully **zipped internal blinds** as well.

You get the brilliant **Advanced Air System** which gives you **single inflation** from the start, plus in the unlikely event of an issue you have with the ability to remove tubes on-site, by yourself, allowing you to fix quickly and continue enjoying your break. You also get the high specification bravo pump making it easier to inflate than ever before.

The awning comes with storm straps as standard with storm strap pockets allowing you to put them away safely and securely when taking the awning down. This stops them getting tangled up with the canvas making the awning easier to pack away.

Item Code	A0420	A0421
Width	330 cm	375 cm
Pack size	96 x 41 x 32 cm	98 x 43 x 34 cm
Total weight	25.5 kg	27.5 kg
Pitching weight*	11.5 kg	12.5 kg

* The pitching weight is the canvas with any removable panels removed.

Air annex shown on vega awning (purchased separately)

Can be used with the following models:
**Pluto • Vega
Omega • Aries**

 **Pitch Time**
5 mins

**Air
Annex**

UNIVERSAL AIR

This is the universal, tall air annex. It is designed to fit and match the **Pluto and Vega** awnings, but also fits the **Omega and Aries** awnings (just does not match colour wise. It simply **zips into place** and can be used on either side of the awnings, or you can put one on both ends adding over 4M of extra storage or extra sleeping compartments.

It uses the **HydraDore SL PRO fabric** which gives you a high specification fabric, whilst still keeps the weight down ensuring this is still a very **lightweight annex** and helping to ensure it can be **pitched by a single person**. The added durability of the **HydraDore SL PRO fabric** means it will last longer and perform better for a longer period.

The annex comes with a **privacy panel** which can be put in place between the annex and your awning to give additional privacy or just to block off the annex.

It uses the efficient **Air Erect System (AES)** which is very simple and easy to use system which makes the awning extremely easy to inflate and easy to erect, so much so that it can even be done by one person.

An additional (optional for use) **storm pole** is already included. The storm pole can be used to take some of the flex out of the air annex, or as a handy place to hang a light, or not even used at all, its up to you.

The annex has a **zipped door** to the rear allowing it to be used to exit or enter without the need to go through the main awning.

The annex adds extra storage room, extra space or can be used with the optional (purchased separately) **inner tent** as a bedroom, giving you loads of extra options for your awning.

Item Code	A0089
Width	200 cm
Pack size	25 x 25 x 81 cm
Total weight	7.6 kg
Pitching weight*	6.6 kg

* The pitching weight is the canvas with any removable panels removed.

Air
Porch Awning

DORADO

The Dorado comes in one size and is all about ease of use. It combines the naturally easy nature of a **lightweight awning** along with the simply and very easy to use **Air Erect System (AES)** means you get one of the simplest and easiest to use awnings available.

The efficient **Air Erect system** combines simplistic reliability and ease of use in one great system. The system is kept simple, making it very easy to use and extremely reliable as there is little to go wrong; a perfect combination.

The use of a **single air beam** ensures this awning is single inflation and means that this awning can be erected in as little as 12 repetitions. Combine this with the excellent **lightweight HydraDore SL fabric** means that this awning can easily be erected by one person. The fabric is also very **quick to dry** making the awning easier to manage and use.

Added stability can be gained by the optional storm poles (purchased separately) giving you benefit in adverse weather conditions and making this lightweight awning great for use in many different weather conditions.

The **large windows** on the awning allow a great amount of light inside and the front panel features two independent doors that can be zipped together as one large panel. The panel can also be used as a **sun canopy** when used with the optional (purchased separately) canopy pole kit. This allows you to use the front as doors, sun canopies or both a door and canopy. You can even roll the entire front up and doors back to give you a great large canopy.

The Dorado also comes with **double beading** (both 4 and 6mm) so it can be used on a caravan or motor home/camper (height dependant). This really is an extremely easy awning to erect, use and live with; the perfect, lightweight air awning.

Item Code	A0090
Width	350 cm
Pack size	103 x 28 x 26 cm
Total weight	9.5 kg
Pitching weight *	6.25 kg

* The pitching weight is the canvas with any removable panels removed.

Dorado awning shown with optional canopy pole kit (purchased separately)

Features

| HydraDore SL very lightweight fabric. | Air erect system. | Single point inflation. | Single person pitch. | Very lightweight. | Anti-Weather system. | Internal blinds. | UV 50+ Protection. **Air
Porch Awning**

LYNX

The Lynx comes in two sizes, the 200 and 240 and is a lightweight awning with a small footprint. Extremely easy to use, easy enough to erect by one person.

The small size is perfect when space is at a premium and when you only want a small porch. Whilst small the Lynx is still large enough for two chairs and a small table. The use of the efficient and simple **Air Erect System (AES)** means that the tubes are independent of each other and can be inflated with as little as twelve repetitions on the pump. It comes with a storm pole to add stability in adverse weather conditions.

Featuring the **lightweight HydraDore SL fabric** that gives you great performance in a lightweight fabric which makes this awning even easier to erect, use and store away when not in use. The fabric also **dries quickly**, making it even easier to manage.

The **oversized large front window** on the Lynx allows a huge amount of light into the awning, making it feel roomy and gives the perfect views when inside. All the windows feature **internal blinds** giving you privacy when needed and light and views when not.

The Lynx 200 is also the perfect awning for all **Swift Basecamp owners**. It fits the rear of the caravan so well you would believe that it has been designed to do so. It fills the entire rear section of the Basecamp creating the perfect extra covered area on your van. The draught pads simply push against the side of the caravan to give you a good seal and help keep the weather out.

The Lynx also comes with **double beading** (both 4 and 6mm) so it can be used on a caravan or motor home/camper (height dependant).

The Lynx is the perfect, lightweight awning when space is at a premium or when you simply want a small porch.

Item Code	A0102	A0103
Width	200 cm	240 cm

Air
Porch Awning

VEGA *High Top*

The Vega high is a luxury modern porch air awning which is made to fit higher vehicles like motor homes and comes in two heights from 255cm up to 285cm.

It features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric with a high performance coating that gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks.

The **removable front & side panels** make this easier to pick up and slide into your wind out canopy or channel, helping to make this awning easier to erect. The awning comes with storm straps as standard and even has storm strap pockets allowing you to put them away safely and securely when taking the awning down.

You also have the option of a **clip in inner tent** or adding **optional annexes** giving more space and more options for expansion. You also get three unique features on the Vega not found on any other

awning. You get **multiple height pegging points** to allow for better pitching on uneven ground and different height vehicles. You get **double rear pads** which give you extra padding and help fill the gap when used on a vehicle with a wind out canopy. Finally you get a **unique adjustable tubes**, which you just unzip and the tube extends to fit better against your vehicle when used with a wind out canopy.

You get the brilliant **Advanced Air System** which gives you single inflation from the start, plus in the unlikely event of an issue you have with the ability to remove tubes on-site, by yourself, allowing you to fix quickly and continue enjoying your break. You also get the high specification bravo pump making it easier to inflate than ever before.

The doors feature a full size window and internal blinds giving you even more light and a full **'Pano View'** allowing you to see out from any direction. This un-rivalled view helps bring the outside in, giving you the very best of both no matter the weather.

Air Drive Away

Orion awning shown with optional annex (purchased separately)

ORION

The Orion is a luxury, performance air drive away awning that has been designed with the camper owner in mind, but is perfect for those after a small drive away awning. It can fit heights between 180 and 270 cm. and features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric that will last for years. The high performance coating on the fabric gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks.

You also have a **zip on and off tunnel** making it easier to pitch and no longer requiring a drive away kit. It also improves the weather resistance and performance of the connection to your vehicle. You can also get a different height tunnel if you change your vehicle.

The **side panels are removable** making it easier to use and you also have the option of the **Orion Annex** and **inner tent** adding extra space for storage or that bedroom pod when needed.

The awning makes a feature of its **Pano View** allowing great views inside and out. It has **oversized windows** on all sides, allowing lots of light inside your awning making it feel bright and airy. All the windows feature **fully zipped internal blinds**.

The Orion is also **Deluxe floor ready**, which means it is ready to take the extremely strong and durable premium flooring which gives you a soft rubberised floor that is not only comfortable but hard wearing and made to measure. The **rain safe canopy** on the front of the awning ensures that you don't get wet when you open your door and allows you to have the front door open without letting rain inside.

You get the brilliant **Advanced Air System** which gives you both **single or multi inflation** from the start, plus in the unlikely event of an issue you have with the ability to remove tubes on-site, by yourself, allowing you to fix quickly and continue enjoying your break. You also get the **high specification bravo pump** making it easier to inflate than ever before.

Pitch Time
15 mins

**Air
Drive Away**

NEPTUNE

The Neptune is a luxury, performance air drive away awning that has been designed with high vehicle owners in mind and can fit vehicles from 240 all the way up to a mighty 320 cm. in height.

It features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric with a high performance coating that gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks.

You get the brilliant **Advanced Air System** which gives you **single inflation** from the start, plus in the unlikely event of an issue you have with the ability to remove tubes on-site, by yourself, allowing you to fix quickly and continue enjoying your break.

What makes this awning unique is that it is designed to work with higher vehicles and thus fits and performs better than it rivals. It goes higher than other awnings thanks to its taller rear beam. This also means even when the awning is attached to very high

vehicles the tunnel roof is not too acute to cause issues with opening doors.

The **side panels can be removed** to lower the initial pitching weight making it easier to pitch, it also means it can be used with the panels to allow for extremely hot days when all you want is shade rather than an awning. You also have a **zip on and off tunnel** making it easier to pitch and no longer requiring a drive away kit. It also improves the weather resistance and performance of the connection to your vehicle. You can also get a different height tunnel if you change your vehicle.

The Neptune also features a **unique extra high rear tube**, not found on any other awning. This gives you extra head room and a feeling of space inside the awning, but also gives much better door access in the tunnel as the height lowers the angle of the tunnel.

Awning Code	A0410
Pack size	113 x 45 x 45 cm
Total weight	35 kg
Pitching weight*	25 kg

* The pitching weight is the canvas with any removable panels removed.

Air Drive Away

HYDRA

This is the all new and improved Hydra for 2021. It is an excellent medium sized motor home awning that is amazingly easy to use. It can be fitted to vehicles (motor homes, caravans and more) between 180 and 270cm in height.

It uses the efficient **Air Erect System (AES)** which is very simple and easy to use system which makes the awning extremely easy to inflate and easy to erect, so much so that it can even be done by one person, so it gets the **single person pitch** feature.

It has **two doors** on the tunnel allowing for entry/exit from either side without the need to come through the main awning and features the **'Pano View'** thanks to it's large number of windows which allows you to get a great amount of light inside making it feel light and airy and giving you great views all around. All the windows have blinds allowing you privacy when required.

You also get the new **Westfield Air Flow Ventilation system**. This is an increased number of permanent built in vents, that can

be closed when you wish. This helps to increase air flow where you need it and close it off where you don't, giving you complete control and giving better protection against condensation.

The use of the superb, **lightweight HydraDore SL fabric** means that this is extremely lightweight, making it even easier to carry, store, use and erect. It is also **quick to dry**, which helps make it easier to manage. The highly effective **U.V. coating** helps to prevent damage from the sun's rays and prolong the life of the awning.

It comes with a **removable, fully tubbed groundsheet**, which velcros in around the entire base of the awning, which can improve the weather performance of the awning, or removed or not used when required. You also have a **zip on and off tunnel** making it easier to pitch and no longer requiring a drive away kit. It also improves the weather resistance and performance of the connection to your vehicle. You can also get a different height tunnel if you change your vehicle.

Awning Code	A0430
Pack size	103 x 32 x 32 cm
Total weight	15.5 kg

Poled Porch Awning

SNOWDON

Say hello to the **Snowdon**. This is no ordinary porch awning. It is built and designed like no other. Everything about it is designed around strength and performance.

It features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric that will last for years. The high performance coating on the fabric gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks.

You have an extended version of the **premium strength steel frame** which is extremely strong and sturdy giving you peace of mind when the weather turns. It has been extended to give further strength against the weather, elevating this awning and giving it a rock solid frame. It is also extremely reliable and has been a proven winner for many years.

The frame includes rear leg poles which are used to push

the draught pads against the side of your vehicles to stop the draughts coming in. Being a traditional frame also means that it is adjustable, so handles uneven ground better than its air rivals.

The Snowdon also has a **high performance PVC roof**, built for its strength and longevity which is extremely important, especially when used for extended periods. This roof is built to outlast all its rivals. All of the panels are sewn in, which gives it extra strength. There is an optional winter pole kit which helps protect the awning even against snow.

This awning is so strong that it can be used as a **permanent pitch awning**. The strength and adjustability of the frame, coupled with the durability of the fabric, plus the additional protection from the external blinds and full PVC roof gives it the extra strength and durability required.

This awning is all about extremes : Extreme weather, extreme performance and extreme strength, it has no equal.

Item	Canvas	Frame
Item Code	A3403C	A3403F
Width	340 cm	
Pack size	88 x 43 x 32 cm	116 x 34 x 25 cm

**Poled
Porch Awning**

KENSINGTON

The Kensington is far more than just a traditional poled porch awning, it is a true 'mini full awning'. It mixes traditional styling with a modern luxury fabric, with a premium strength steel frame to give you the perfect balance between ease of use, performance, pitch time and reliability.

It features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric that will last for years. The high performance coating on the fabric gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks.

All the windows come with **traditional curtains** to complement the traditional look. The windows are a modern take as they are larger and clearer than traditional ones allowing for great views from anywhere in the awning and allows extra light flood into the awning.

You have an extended version of the **premium strength steel frame** which is extremely strong and sturdy giving you piece of mind when the weather turns. Its traditional design is extremely reliable and has been a proven winner for many years.

The frame includes **rear leg poles** which are used to push the draught pads against the side of your vehicles to stop the draughts coming in. Being a traditional frame also means that it is **adjustable, so handles uneven ground better** than its air rivals and it also packs away to a smaller size.

The **removable front and side panels** make the awning easier to pick up and slide through your awning channel, helping to make this awning easier to erect.

The Kensington can also be extended by using the **Westminster poled annex** on either or both sides, or you can use the **pop up inner tent** inside the awning itself.

Item	Canvas	Frame

**Poled
Porch Awning**

WINDSOR

The Windsor is a traditional poled, porch awning, with a modern luxury performance. It is small and perfectly formed, giving you the perfect small porch that is extremely strong, reliable and built to last.

It features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric that will last for years. The high performance coating on the fabric gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks.

All the windows come with **traditional curtains** to complement the traditional look and feel of this awning. The windows are a modern take on the classic porch awning and are larger and clearer allowing for great views from anywhere in the awning and allows extra light flood into the awning.

You have a **premium strength steel frame** which is extremely strong and sturdy giving you piece of mind when the weather turns. It is also extremely reliable and has been a proven winner for many years. The frame includes **rear leg poles** which are used to push the draught pads against the side of your vehicles to stop the draughts coming in. Being a traditional frame also means that it is **adjustable, so handles uneven ground better** than its air rivals and it also packs away to a smaller size.

The **removable front panel** make the awning easier to pick up and slide through your awning channel, helping to make this awning easier to erect.

The awning comes with **heavy duty storm straps** that clip into the sewn in buckles as standard ensuring you do not need anything else, there are no hidden extras, or extras to buy.

Item	Canvas	Frame
Item Code	A3400C	A3400F
Width	280 cm	
Pack size	110 x 32 x 32 cm	113 x 29 x 20 cm

**Poled
Annex**

WESTMINSTER

This is an excellent, premium, tall poled annex. It is designed to zip onto the **Kensington performance poled awning** and can be used on either side of the awning, or you can put one on either end.

It features the luxury **HydroTech Cotton Touch fabric** which is an all weather, premium fabric that will last for years. The high performance coating on the fabric gives it an extremely high weatherproof rating and helps protect it and you from the harmful U.V. rays. The fabric also has that luxury cotton touch to it making it feel as good as it looks.

You have a **premium lightweight aluminium frame** which is lightweight helping to keep the weight down, whilst the premium nature of the frame ensures its strength and durability.

The frame ensures the annex is tight and strong, no matter the weather and gives you plenty of places to hang a light or more. Being a traditional frame also means that it is **adjustable, so handles uneven ground better** than its air rivals and it also packs away to a smaller size.

The annex has a **zipped door to the rear** allowing it to be used to exit or enter without the need to go through the main annex and has **patterned windows** all around allowing light in, but still giving you privacy.

It also has **built in ventilation** to help keep it cooler, which is especially important if its being used as a bedroom. The annex adds extra storage room, extra space or can be used with the **optional** (purchased separately) **inner tent** as a bedroom, giving you loads of extra options for your awning.

Poled Porch Awning

FALCON *Porch*

The Falcon porch comes in four different sizes (220, 260, 325 and 390) and is a lightweight poled porch awning, that is high on features, ease of use and low on weight and cost.

The awning is all about ease of use and value. It features an easy to use, **minimal quick-fit pole system**. This pole system is quick to put together, lightweight and adjustable to help ensure the best pitching even on uneven ground. It has one single pole at the front of the awning. This single pole ensures that it is quick and easy to erect, helping to ensure that this awning is easy enough to be pitched by a single person.

The awning has features such as **full mesh doors**, roll down, half or full blinds, **roll up front panels**, sun canopy fronts (if used with the optional universal canopy pole kit).

It uses the modern **Quest Tec75 fabric** which is lightweight, quick drying and extremely waterproof making the awning easier to use and maintain. The very lightweight nature of the fabric also

ensures that it can be easily pulled through the awning channel on your caravan.

Single person pitch: The extreme light weight nature of the awning, coupled with the ease of use and lightweight when pulling through the awning channel means that this awning can be pitched by one person.

The fabric is also U.V. coated helping to protect it from the harmful UV rays which helps extend its lifespan and gives you an amazingly high **U.P.F. rating of 50+** which gives you a great level of protection.

All this plus a **very small pack size**, light weight and amazing value makes the Falcon an excellent awning for the weekend, first timers, the budget conscious and just about anyone after an easy to use lightweight porch.

Item Code	A3500	A3501	A3502	A3503
Width	220 cm	260 cm	325 cm	390 cm
Pack size (cm)	78 x 21 x 21	79 x 22 x 22	79 x 24 x 24	90 x 26 x 26
Total weight	7.8 kg	7.9 kg	8 kg	13 kg
Pitching weight*	3.9 kg	4 kg	4.1 kg	5.1 kg

* The pitching weight is the awning without the poles.

Features

- | Quest Tec75 very lightweight fabric.
- | Minimal, quick fit frame system.
- | Very lightweight.
- | Single person pitch.
- | Very small pack size.
- | Pop up inner tent ready.
- | UV 50+ Protection.
- | Internal blinds.
- | Adjustable frame for better pitching.
- | Three doors.
- | Large windows
- | Ventilation side doors (large).

180 - 210 cm
and
240 - 270 cm

 **Pitch Time**
15 mins

Poled
Drive Away

FALCON *Drive Away*

The Falcon drive away comes two heights (180 - 210 cm and 240 - 270cm) and is a lightweight poled drive away awning, high on features, ease of use and low on weight and cost.

The awning is all about ease of use and value. It features an easy to use, minimal quick-fit pole system. This **minimal quick fit** pole system is quick to put together, **lightweight and adjustable** to help ensure the best pitching even on uneven ground. Poles are kept to a minimum and only has two poles to ensure that it is quick and easy to erect, helping to ensure that this awning is easy enough to be **pitched by a single person**.

With **windows all around** you get amazing views from anywhere in the awning and loads of light to make the internal space feel bright and airy. Every window has its own **internal blind** allowing you privacy when required and light and air when not.

It uses the modern **Quest Tec75 fabric** which is lightweight, quick drying and extremely waterproof making the awning easier to

use and maintain. The fabric is also U.V. coated helping to protect it from the harmful UV rays which helps extend its lifespan and gives you an amazingly high **U.P.F. rating of 50+** which gives you a great level of protection.

The awning has features such as **full mesh doors, roll down, half or full blinds, roll up front panel**, sun canopy front (if used with the optional universal canopy pole kit, which is purchased separately). It also has a feature nobody else does: A **built in drive away kit** : The tunnel beading can be zipped on or off which allows you to use it without the need for a drive away kit and gives you a better connection than when used with a drive away kit.

All this plus a **very small pack size, light weight** and amazing value makes the Falcon an excellent awning for the weekend, first timers, the budget conscious and just about anyone after an easy to use lightweight drive away awning.

Item Code	A3507	A3508
Connection height	180 - 210 cm	240 - 270 cm

Premium
Glamping
Experience

Poled
Bell Tent

Emperor shown with optional large tarp (purchased separately)

EMPEROR

Be the envy of all campers with this amazing “big top tent” and stand out from the crowd whilst also making sure you never lose where you pitched your tent again. The **Emperor** is the ultimate glamping tent which enables you to utilise the space anyway you want and make it different every time you go away.

Featuring the premium **Quest Tec FullC 100% cotton canvas**, this means no more worrying about “is my tent leaking or is it condensation?” as this is a **fully breathable** material. Not only is it breathable, the cotton material has much better insulation properties which will keep the tent cooler in the summer and warmer in the colder months giving you much more comfort than a polyester or poly-cotton tent and enabling you to camp all year round.

The **premium minimal pitch steel frame** is solid and robust giving you peace of mind that this tent will be with you for years to come. Amazingly the Emperor only has six poles helping to ensure it is not only easy but quick to erect.

The heavy-duty **Fully Zipped PVC groundsheet** can be removed when pitching and taking down making it easier to pitch, put away and helping to keep the main unit clean even when the ground is muddy. With the groundsheet unzipped, you can then roll up the sides which allows your Emperor to seemingly float in the air, allowing the breeze to come through on those hot days and give you that **360° Vista View**.

This Emperor also has added **scenic windows**, normally not available on bell tents. This gives you great views even when the weather is bad. It has **premium no-chill mesh panels** with **internal blinds** around the base of the walls giving great air flow when required and full **double layered mesh doors** allowing an amazing amount of air flow when the weather is hot.

The tent comes complete with everything you need to set up including **heavy duty pegs**, pre-attached guy lines & rain cowls for the “A frame”.

**Poled
Bell Tent**

BELL

The Classic bell comes in three sizes, 4M, 5M, 6M and is a **premium quality, full cotton**, canvas frame tent with an extra thick **PVC zip in groundsheet** which makes this a fantastic family friendly tent or perfect for a couple who want that bit more space. Sleeping anywhere from 1 – 10 adults we have the perfect size for every requirement.

Featuring the **premium Quest Tec FullC 100% cotton canvas**, this means no more worrying about “is my tent leaking or is it condensation?” as this is a fully breathable material. Not only is it breathable, the cotton material has much better insulation properties which will keep the tent **cooler in the summer** and **warmer in the colder months** giving you much more comfort than a polyester or poly-cotton tent and enabling you to camp all year round.

The design has been around since the 9th century so you can be confident that this tent will be ready for action whether in the summer or the heart of the winter.

The use of the **Premium, Minimal Pitch Frame** means that, amazingly the tent only has two poles making it is extremely easy and quick to pitch, so much so that it can easily be **pitched by a single person** in under 15 minutes.

The **heavy-duty Fully Zipped PVC groundsheet** can be removed when pitching and taking down making it easier to pitch, put away and helping to keep the main unit clean even when the ground is muddy. With the groundsheet unzipped, you can then roll up the sides and allow your bell tent to float in the air, allowing the breeze to come through on those hot days and give you the **360 degree vista view**.

Bell Tent

TOUAREG

Offering a more open feeling compared to other Bell tents, the Touareg has fantastic features with a unique quality. It features double layered doors at either end allowing exit and entry from both sides. These **double layered doors** give you perfect privacy as well as a full mesh panel for added air flow.

The **premium Quest Tec FullC 100% cotton canvas** means there is no more worrying about “is my tent leaking or is it condensation?” as this is a fully breathable material. Not only is it breathable, the cotton material has much better insulation properties which will keep the tent **cooler in the summer** and **warmer in the colder months** giving you much more comfort than a polyester or poly-cotton tent and enabling you to camp all year round.

The **heavy duty Fully Zipped PVC groundsheet** can be unzipped and rolled up to allow the breeze to come through on those hot days and give you that **360° Vista View**, which is a unique feature its rival do not have.

On top of these double layered doors you get **Scenic Windows** on both sides. These aren't usually found as standard on a Touareg, but are on this model. They have **internal blinds** for privacy and give great views and allow more light inside, even when the weather is bad.

The **premium minimal pitch frame** is extremely strong giving you peace of mind that this tent will be with you for years to come. Amazingly the Touareg only uses one centre pole and two doorway ‘H frame’ poles which helps ensure it is easy and quick to pitch, so much so that it can be **pitched by a single person**.

With a **smaller pack size** than similar sized tents on the market you will still have plenty of space in the car to make sure you pack everything you need for your trip without having to get a trailer or roof box.

Complete with everything you need to set up including **heavy duty pegs**, pre-attached guy lines , you are ready to go.

Item Code	A5003
Size	500 x 400 x 300 cm
Berth	1 - 10 (1 - 2 out of inner tent and 1 - 8 inside)

Extra large tarp shown on Touareg tent

TARPS & INNER TENTS

Universal Tarps

These are our excellent universal tarps. They are made to fit into the Quest Elite® Signature Bell tent range, but can be used with virtually any tent, awning, porch or vehicle. They feature the same **Quest Tec FullC 100% cotton fabric** and **heavy duty guy ropes** and **hand sliders** to match your bell tent perfectly.

Tarps have multiple uses, they can be used as a porch or a windbreak for your tent. They can even be used for a porch for your awning, a camper van canopy, or a connector from your bell tent to your vehicle even a stand alone shelter or dining tarp, and much much more.

5 Star Premium Inner Tents

These are our excellent 5 star premium quality inner tents. They are made to fit into the Quest Elite® Signature Bell tent range, but can be used inside others bell tents as well. They have a full **100% breathable cotton** upper. **Easy clean, hard wearing dual layered PVC base** gives extra durability and comfort from the ground.

Full **dual layered ventilation doors** and a **zip open/close partition wall** gives you lots of different options and the storage pockets inside are a great place to keep things in place. They also have **extra fully zipped vents** around the base that match up with the vents on your tent allowing you full control over air flow in and out of the inner tent.

SCREEN HOUSE PRO

This is the Pro version of the best selling Screen House. It is still the simplest, quickest, easiest and best gazebo on the market, still comes in two sizes (4 and 6) and is built and designed so **one person can erect (or take it down) in less than one minute.**

It has all the benefits from the premium **No-Chill PRO mesh panels**, with additional sewn in and **fully zipped Quest-Tec 210 side walls**. This gives you an un-rivalled amount of options. You can roll the side walls down for complete privacy. Open the external blinds on the windows to allow light and views in, or roll the entire side wall up to reveal the premium quest **No-Chill PRO mesh** sides allowing it to be warmer in the wind and cooler in the sun.

It uses the latest generation **premium hub system** which has been improved on again making it smaller, lighter and more durable, whilst maintaining its ease of use and ability to be repaired if required.

The **Quest Tec 210 fabric** gives you a waterproof roof and the excellent coating helps lengthen its life span. It also has a **UV rating of 50+** giving you great protection from the sun.

The Screen House Pro also features the new **accessory zip**. This is a full zip that runs around the entire front of the doorway(s) allowing for additional accessories to be attached to extend the features of your screen house.

You can already get the large **front canopy** for the accessory zip, also the new **vehicle connector**, new **screen shield** and more to come, giving you extra usage and features on your Screen House pro.

The Screen House 6 Pro also has an additional door giving you two entrances or exits and allows you to zip up to 6 of them together to create a Screen House village.

SCREEN HOUSE

The Screen House is the original, quickest, easiest and best gazebo on the market. It comes in two sizes, the Screen House 4 which has 4 sides and the screen house 6, which has 6 sides.

The Screen House has been built and designed to be so easy to erect that **one person** can erect it **in less than one minute**. It is also just as easy to take down and can be taken down by one person in less than one minute and easily stored away in its own **zipped carry bag**.

There is **nothing to build, put together, tension or inflate**, you simply take it out of the bag, unfold it and pull/push the sides and roof and it springs into position and you are ready to peg (we always recommend pegging all storm straps and pegging points).

It uses the latest generation **premium hub system** which has been improved on again making it smaller, lighter and more durable, whilst maintaining its ease of use and ability to be

repaired if required. The premium hub system has been in use for over 5 years now and our original samples are still going strong, so the frame system is truly built to last.

It comes with **extra pegging points** on every corner and in the middle of each side giving you great ground anchorage. It has **storm straps** on every side ensuring it stays up in adverse weather and makes it sturdier than any gazebo you are used to. It also comes with two additional poles that are used in the doorway to give extra strength and stability against the wind when the screen house is in use.

The premium **No-Chill PRO mesh** panels are built in, these help keep you warmer in the wind and cooler in the sun, but allows the air to flow ensuring no gas build up can occur inside.

The **Quest Tec 210 fabric** gives you a waterproof roof and the excellent coating helps lengthen its life span. It also has a UV rating of 50+ giving you great protection from the sun.

Item Code	120053	120051

SCREEN HOUSE MINI

The screen house mini is a compact version of the original screen house 4. It is perfect when you want the speed and ease of use of the screen house, but in a smaller package.

It is 145 x 145 cm in size and **packs away to a small size** making it easy to store away when not in use. It comes in its own **zipped carry bag** so carrying it is easy as well.

There is **nothing to build, put together, tension or inflate**, you simply take it out of the bag, unfold it and pull/push the sides and roof and it springs into position - fully set up and ready to peg.

It uses the latest generation **premium hub system** which has been improved on again making it smaller, lighter and more durable, whilst maintaining its ease of use and ability to be repaired if required. The durability of the hub gives the screen house (pro, standard and mini) an edge over the competition, they last for years and years. Our test models are used for a number of years and go through at least 10-15 years worth of

wear in that period, proving just how strong, durable and reliable they are. The premium **No-Chill PRO mesh** curved panels are built in, these help keep you warmer in the wind and cooler in the sun, but allows the air to flow through keeping it fresh at all times.

It uses the modern **Quest Tec75 fabric** which is **lightweight** and **quick drying**. It is U.V. coated to help protect it from the harmful UV rays which helps extend its lifespan and gives you a **U.P.F. rating of 50+** which is the highest possible giving you complete protection.

It has **pegging points** and **storm straps** for great ground anchorage and better protection from the wind. It also has a **built in groundsheet** with an **oversized front** that can be pegged down to the front of the screen house mini, or toggled up to form a **stable style door**.

This is perfect for use on a beach, at a festival, even just in the garden to give protection from the sun.

Item Code	A5503
Size	145 x 145 (+38) cm

Instant Utility

INSTANT UTILITY

The Utility tent comes in one size and can be used as a **simple storage tent**, or an easy to use **shower tent**, your own **private toilet tent**, a great **fishing shelter** or even the perfect **small utility tent**.

It is 155 x 155 cm in size and packs away to a small size making it easy to store away when not in use.

Thanks to the excellent **Zero Tension Frame** which is simplicity itself, the Utility tent can be erected by **one person** in a matter of seconds. It is **very lightweight** and packs away into its own **zipped carry bag**, making it easy to carry and store.

There is **nothing to put together, nothing to assemble**, you just take it out of the bag, put it onto the floor and open it up, the **frame locks in position** so you don't even have to tension it, everything is done for you.

The **toggle away floor** can be left down if being used as a utility tent, or hooked up out of the way if it is being used as a toilet tent and the addition of the **utility shelf** allows it to be used as a shower tent giving you loads of different options for a single unit.

It uses the modern **Quest Tec75 fabric** which is lightweight and quick drying. It is U.V. coated to help protect it from the harmful UV rays which helps extend its lifespan and gives you a **U.P.F. rating of 50+** which is the highest possible giving you complete protection.

This is the perfect multi-function utility tent for use in so many different scenarios.

Item Code	120010
Size	155 x 155 cm
Height	205 - 220 cm
Pack size	17 x 17 x 105 cm

- | Zipped carry bag.
- | Multi functional. - Simple storage tent - Fishing shelter - Toilet tent - Shower tent or Utility tent.
- | Quick drying.

(for full details on the features - see pages 37 - 39)

SCREEN HOUSE EXTRAS

Screen House Pro Vehicle Connector

Built to fit the Screen House Pro the vehicle connector is designed to connect your screen house to a vehicle. It connects to vehicles between 180 and 210cm and simply zips onto the existing accessory zip and instantly gives you tunnel connector with two doors on. The connector features double beading (4 and 6mm) on to allow fitting into an awning channel, or use with a drive away kit. The vehicle connector can also be used on its own on your vehicle to give you a sheltered cover over your door and can even have the canopy zipped to the front of it to give you a canopy and cover over your door.

Screen House Pro Canopy

The Screen House Pro canopy fits both the Screen House 4 Pro and Screen House 6 Pro. It simply zips onto the existing accessory zip on your screen house pro in seconds and instantly gives you a large canopied area to the front. It comes with storm straps and

pegs so there is nothing extra you need. The fibreglass pole at the front of the canopy can be pegged in different positions (further in or out) to higher or lower the canopy and to change the shape of the canopy.

The canopy can actually be used in conjunction with the vehicle connector (the canopy zips directly onto the vehicle connector) to allow it to be used as a cover and canopy for vehicles between 180 and 210 high as well.

Screen House Side Walls

The Screen House side walls are sold in pairs and they are used to give extra weather protection when the weather is bad or extra shade when the sun is out, or extra cover from the wind and rain when the weather is worse. They only take seconds to put on and can also be used (in conjunction with the universal canopy pole kit) as an additional sun shade on the side of your screen house.

Poled Wind Break

The image above shows the windshield pro, door panel, additional panel and weather canopy all together.

WINDSHIELD PRO

The Windshield Pro is the very best windbreak available. It is lighter, more expandable, more secure and more stable than its rivals.

It has a **patented frame system** that has been designed with one job, to deliver the very best windbreak possible. One of the patented parts are the connector at the top of the leg support poles. This simple fitting firstly locks the leg support pole in place, it also strengthens the top bar of the windshield making it stronger against the wind and even helps stop the bars moving in the wind, where rivals simply pop off in the wind.

The Windshield Pro can be **slid into your caravan** (or motor home) awning channel (if available) allowing you to come directly off the vehicle.

The frame system locks itself in place making it easier to erect and more sturdy when in use. The unique frame system means **no guy lines are required** and the entire frame system can be placed on one side of the windshield ensuring you have absolutely no trip hazards and you get to use 100% of the space available.

It can be extended with a door, an additional panel and now a weather shade giving you an amazing amount of options. The Windshield is designed to go right down to the ground and with its additional pegging points held down making a secure and safe place on the inside, perfect for pets and children.

The new Expert Edition features the new **super sleeves / dog guard**, which gives you better connection to the ground. The sleeves act as a mud wall and draught skirt giving you better draught exclusion. Next it allows you to use additional top cross poles (purchased separately) as a **dog guard feature**. This dog guard feature creates a solid bar across the bottom of the panel ensuring your pet cannot push the material out of the way as it is held firmly in place with the solid aluminium bar.

This bar can also be used to help anchor the windshield to hard ground. It allows you to use ladder bands or elastics (purchased separately) to form additional pegging points that can be used easily and effectively even on hard ground.

100% Full
cotton fabric.

**Poled
Wind Break**

WIND BLOCKER

This is the excellent, premium windbreak perfect for use with your bell tents or anything else.

It uses the same **sustainably sourced Quest Tec FullC 100% cotton fabric** that the signature bell tent range uses so it will match perfectly with all the models. It also means that it will last for years and look amazing when in use.

Used along with the additional tarps it can create that additional covered space you want, whilst keeping in style with your bell tent, but they aren't just for Bell Tent owners this is a stand out wind breaker for any one after a higher quality, premium windbreak that will last longer.

It comes with **wooden poles** to finish the natural bell tent look and also features the same **premium guy ropes** and **hand sliders** that are on the Quest Elite® Signature range of bell tents.

The premium guy ropes are a cut above your standard guy line. These are heavy duty, extremely strong, durable, hard wearing, braided rope and allows you to get as much tension as you need without any chance of breaking.

The hand sliders on the guy lines are large metal hand sliders finished in a premium coating to make tensioning your guy rope easier and more comfortable as well as lasting longer than their rivals.

To finish off the premium windbreak you get heavy duty ground anchors. These give much better ground anchorage and will last far longer than their cheap rivals.

Poled Wind Break

FALCON 500

The Falcon is a **lightweight**, poled windbreak that is matched perfectly with the Falcon range of awnings and is fantastic value for money.

It uses the modern **Quest Tec75 fabric** which is **lightweight and quick drying** fabric. It is U.V. coated to help protect it from the harmful UV rays which helps extend its lifespan and gives you a **U.P.F. rating of 50+** which is the highest possible giving you complete protection.

The windbreak comes in its own **zipped, carry bag** with dual handles making it easy to carry and store away. The windbreak breaks down to an **incredibly small pack size** which is excellent and makes storing it away even easier.

The windbreak is styled to match the Falcon range of awnings. It uses the same base fabric and same colours to ensure that it blends in perfectly, making it the perfect companion to any of the Falcon porch or drive away awnings.

This windbreak is not only amazing value for money, but such a small pack size makes it perfect for those with limited space, the budget conscious as well as any Falcon awning owner.

Item Code	A1037
No of panels	3
Size	500 x 140 cm
Pack size	57 x 14 x 11 cm

2 people : 5 mins

100% Full
cotton fabric.

Poled
Wind Break

The image shows the 3 panel and 1 panel shown zipped together.

SCREEN SHIELD

The Screen Shield is a lightweight, extremely quick and easy to use windbreak that comes in two sizes, a 1 panel and 3 panel version and is very different to most windbreaks.

The first difference is the height. This windbreak is **high, very high** in fact at 180cm it is around the highest windbreak available. This gives you even **better protection from the wind** and when it is **zipped directly onto the Screen House Pro** matches perfectly well. Each panel has a **large viewing panel** in as well so you still get great views when the windbreak is up.

The next difference is that it can be **zipped straight onto a Screen House pro** (fits both a 4 and 6). It simply zips onto the accessory zip that is already on your Screen House Pro and gives you extra shielded space from your screen house pro.

Next you can **zip screen shields together**. You can zip as many together as you want. You can mix and match 1 panel and 3 panels, giving you complete flexibility in size.

It uses the same latest generation **premium hub system** which has been improved on again making it smaller, lighter and more durable, whilst maintaining its ease of use and ability to be repaired if required.

There is **nothing to build, put together, tension or inflate**, you simply take it out of the bag, unfold it and pull/push each panel and it springs into position - fully set up and ready to peg.

To help increase its strength and performance in the wind you also get **guy lines for added stability** and a lightweight **aluminium pole(s)** (2 on the 3 panel, 1 on the 1 panel). These combined with the framework in the screen shield itself helps make it **extremely stable**.

It uses the same **Quest Tec210 fabric** that the screen house uses to ensure it matches perfectly and gives you the same **lightweight** combined with **high performance**. It also means that it is UV coated and gives a **UV rating of 50+** ensuring protection from the sun.

Item Code	A5510	A5512
Model	One	Three
No of panels	1	3
Size	180 x 180 cm	540 x 180 cm

Flooring Guide

Breathable Cosy Carpet

- Breathable • Higher quality, denser and more robust weave • Easy to use • Universal use • Vintage pattern • Carry bag
- Easy to clean • Lightweight • Durable

- **A1101XS**: Extra small (250 x 250)
- **A1101M**: Medium (350 x 250)
- **A1101L**: Large (400 x 250)

Model	Flooring	Fitting Details
Pluto (xsmall)	1 x A1101XS & 1 x A1101M	This gives you one mat per side of the awning.
Pluto (small)	2 x A1101M	This gives you one mat per side of the awning.
Pluto (medium)	2 x A1101M	This gives you one mat per side of the awning.
Pluto (large)	1 x A1101M & 1 x A1101L	This gives you one mat per side of the awning.
Pluto (xlarge)	1 x A1101M & 1 x A1101L	This gives you one mat per side of the awning.
Vega 330 / 330 High	1 x A1101M	Covers the entire area and will protrude slightly (or fold over).
Vega 375	1 x A1101M	Covers the entire area with the mat resting on the mudwall.
Air Annex	1 A1101XS	Covers the entire area and protrudes slightly all the way around.
Dorado 350	1 x A1101M	Covers the entire area, due to the angled shape of the awning the corners may need to be folded in or will protrude.
Lynx 200	1 A1101XS	Covers the entire area and protrudes (or fold over).
Lynx 240	1 x A1101XS	Covers the entire area and may protrude slightly.
Snowdon	1 x A1101M	Covers the entire area and may protrudes slightly.
Kensington	1 x A1101M	Covers the entire area and may protrudes slightly.
Windsor	1 x A1101XS	Covers the entire area with the mat resting on the mudwall.
Westminster	1 A1101XS	Covers the entire area and protrudes (or fold over).
Orion	1 x A1101M or 1 x A1101XS or 1 x Orion groundsheet	Covers the entire area and may protrude (or fold over) or Covers 80% of the area with a gap around the edge or Designed to fit and velcros in place all around.
Neptune	1 x A1101L or 1 x Neptune groundsheet	Covers the entire area and may protrude (or fold over) or Designed to fit and velcros in place all around.
Hydra 320	1 x A1101M or 1 x A1101XS or 1 x Hydra groundsheet	Covers the entire area and may protrude (or fold over) or Covers 80% of the area with a gap around the edge or Designed to fit and velcros in place all around.
Falcon 220	1 x A1101XS	Covers all of the area and will protrude slightly (or fold over).
Falcon 260	1 x A1101XS	Covers all of the area with the mat on the mudwall.
Falcon 325 (porch)	1 x A1101M	Covers all of the area and may protrude slightly on the left & right.
Falcon 390	1 x A1101L	Covers all of the area and may protrude slightly on the left & right.
Falcon 325 (drive away)	1 x A1101M	Covers all of the area with the mat on the mudwall.
Screen House 4	1 x A1101XS	Covers the entire area and may protrude slightly
Sceeen House 4 Pro	1 x A1101XS	Covers the entire area and may protrude slightly
Screen House 6	1 x A1101M	Gaps due to square mat and hexagon shape of the screen house
Screen House 6 Pro	1 x A1101M	Gaps due to square mat and hexagon shape of the screen house
Bell 400	1 x A1101M	The circular nature means that the matting will never go right to the edge , so we recommend one main mat and a few throws.
Bell 500	1 x A1101L	The circular nature means that the matting will never go right to the edge , so we recommend one main mat and a few throws.
Bell 600	2 x A1101XS	The circular nature means that the matting will never go right to the edge , so we recommend two main mats and a few throws.
Touareg	2 x A1101L	This gives you one mat per side of the awning.
Emperor	2 x A1101L	This covers 80% of the floor, but due to the cut in sides will not cover the entire area.

Features Guide

- **120 seconds to erect** : This item can be erected in less than two minutes. We test it ourselves to ensure that it can be done.
- **2 Year full warranty** : This product is built to last, so we give you a full 2 year warranty, giving you more peace of mind.
- **360° Vista View** : The 360 vista view option allows you to roll the entire side of the bell tent up, allowing for amazing views and gives your tent a complete an full airing.
- **60 seconds to erect** : The product can be erected in less than sixty seconds. We test it ourselves to ensure that it can be done.
- **Accessory Zip** : This is a zip which allows the use of accessories and optional products. You can zip on a canopy, vehicle connector and the new screen shield.
- **Adjustable tubes** : Thsi awning has adjustable air tubes which help improving pitching and fitting by allowing the size of teh tube to be adjusted in length.
- **Advanced air system (AAS)** is a high specification air tube system. It is designed to give you the benefits of both a multi-inflation system as well as the ease of use of a single inflation system. The system uses 4 layers for strength and stability to ensure the best performance possible. The first layer is the internal bladder which is the part that you inflate. Then we have a dual layer protective cover that has PE and polyester covers bonded together, the PE layer of the cover is also reinforced at the stress points giving it extra strength and stability. Finally we have a sleeve which is sewn into the awning. This improves the protection around your air tube, as well as the stability of the awning because the tube is held in position better.
- **Air flow system** : This is the next generation of ventilation for awnings and tents. It has mutiple vents, whcih can be closed to allow you more or less ventiation and control over where the ventiation comes from.
- **Annex ready** : This product has an annex option, allowing you to add that extra space for storage, bedroom(s) and more. You can have one or two annexes as they can be attached to either side of the product.
- **Any season awning/tent** : This awning or tent can be used in any season. and any time during the year thanks to the durability of the fabric, backed with the design and strength of the frame, means that it can handle the elements such as wind, rain, snow and the sun.
- **Air erect system (AES)** This is a quick air system, simplified to make it easier to use and less to go wrong, the system uses 4 layers The system uses 4 layers for strength and stability to ensure the best performance possible. The first layer is the internal bladder which is the part that you inflate. Then we have a dual layer protective cover that has PE and polyester covers bonded together, the PE layer of the cover is also reinforced at the stress points giving it extra strength and stability. Finally we have a sleeve which is sewn into the awning. This improves the protection around your air tube, as well as the stability of the awning because the tube is held in position better.
- **Aluminium stability pole** : This is an included aluminium pole that can be used to give extra strength and stability.
- **Anti-Weather system** : This is a collection of updates that keep the bad weather out. They include extra rain protectors on zips, use of waterproof material for toggle points, additional material panels for dual coating and added weather protection.
- **Built in drive away kit.** This awning does not need a drive away kit as it is built in. This means it is easier to fit and fits better than models which need a drive away kit.
- **Built in ventilation.** This product has some permanent built in vetilation which is helps combat condensation.
- **Curtain pole ready.** This awning has sewn in loops ready to take a curtain pole and curtains (purchsd seperatley).
- **Dog guard** : This is an optional function which is specifically designed to help keep dogs inside your windbreak.
- **Double beading** on your product means that it can be used in either 4 or 6mm channels. This enables you to use this awning directly in a roll out/wind out canopy as well as standard caravan awning channels.
- **Double rear pads** : This awning has double rear pads sewn in. These are better than single ones as they give you the opton of a standaard isngle pad or double depth double pad to fill gaps left by windows or roll out canopies.
- **Emergency support system** : The emergency support system is built into your product and helps if there is an issue. If your air tube is damaged then the emergency support system will ensure your product stays up, allowing you to fix the issue.
- **Extendable** : Thsi product can be extended in size and features by the addition of extra panels/optional extras.
- **Extra high rear tube** : This awnig has a unique exta high rear tube, which gives you better door clearance on higher vehicles.
- **Extra pegging points:** This product has extra pegging points which gives you better ground anchorage and better protection from the wind.
- **Fully adjustable frame** : This product has a premium, solid adjustable frame, with years of proven reliability. As it can be adjusted it also works better on uneven ground, allowing for better pitching and performance.
- **Fitting Plus** is an advanced fitting system giving better performance and a tighter fit by using double pads, adjustable air beams and multiple height pegging points.
- **Ground anchors** are extreme heavy duty anchors. far stronger than normal pegs, these anchors give you a far more secure and strong anchor pint for you tent or awning.
- **Groundsheet ready** : This product has the option of a high performance velcro in groundsheet. This groundsheet is made to measure including snug fit cut-outs for the air beams, peg down doorways to remove trip hazards and it is a fully tubbed

Canvas Features Guide

groundsheet giving the very best weather protection and added strength to the product. It is also made from a premium, high strength, durable but comfortable rubberised material, which gives better thermal protection from the ground, a comfortable top to walk over and is highly durable and easy to clean.

- **High performance PVC roof** : The snowdon has an extremely strong and durable PVC roof, which will last longer than its polyester rivals.
- **HydroTech cotton touch** is a premium 300D polyester fabric. It has a unique dual coating which gives it a class leading 10,000mm hydrostatic head and has a soft cotton touch feel to the outer. It is extremely strong, which means it does not need rip-stop stitching as it is already tear resistant. It is also extremely durable meaning it will last and look better for longer. The fabric also has an excellent condensation performance, helping to keep it down to a minimum.
- **HydraDore SL** is a premium lightweight fabric. A 75D polyester with a premium coating and 3,000mm hydrostatic head. It's lightweight makes it easy to use and quick to dry, yet the coating gives it a high performance & extended durability.
- **HydraDore SL Pro** is the thicker more performant version of the HydraDore SL fabric. It is a 150D polyester with 4,000mm hydrostatic head and added performance and durability, whilst still keeping the weight down.
- **Independant front panels** : This awning has two independant front panels, which allows you to use one at a time or both at once, giving more options.
- **Internal blinds** are sewn in and used to cover your window and give you additional privacy when required. They can be either toggle blinds, where they are toggled up, or premium fully zipped blinds which have zips to open and close them.
- **Internal curtains** : This product has traditional curtains rather than blinds. The curtains give you that traditional look, but can also be removed and cleaned if required.
- **Lightweight** : This product is lightweight. The lightweight of the product helps make it easier to pitch carry and store and also helps towards being single person pitch.
- **Minimal quick-fit frame** : This is our minimal quick-fit frame which is designed to use a few poles as possible to make it easier and quicker to pitch.
- **Multi point inflation** : This product is inflated from multiple points. This can make it easier than single point inflation as it makes pumping each tube up much easier.
- **Permanent pitch** : This product has been designed to allow use as a permanent pitch awning. It is stronger and more durable than standard awnings allowing the extended use.
- **Pop up inner tent ready** : The product can take our free standing pop up inner tent giving you the option of having a sleeping pod/bedroom/junk room inside your product.
- **Premium guy ropes** are a level above your normal guy

lines. These are heavy duty, extremely strong, durable, hard wearing, braided rope and allows you to get as much tension as you need without them breaking.

- **Premium hand sliders**. These are large metal hand sliders finished in a premium coating to make tensioning your guy rope easier and more comfortable.
- **Premium NoChill mesh ventilation with covers**: These are mesh ventilation panels with full zipped covers. The premium mesh allows air flow through, but stops the wind chill allowing fresh air in, but without the cold.
- **Premium NoChill PRO mesh**: This is the pro version of our premium No-Chill mesh. It allows air to flow freely though, but stops the wind chill to help the air inside feel cooler in the summer and warmer in the cold. The pro version is stronger and more durable than the standard version.
- **Premium hub system** : The premium hub on the screen house is in its 5th generation of hub and they get better every time. They have years of proven reliability and have years of use built in.
- **Premium, lightweight aluminium frame** : A premium quality aluminium frame which is both weatherproof & lightweight.
- **Premium, minimal pitch frame** : This is a premium frame designed to use a few poles as possible, that makes the tent easier to pitch. The poles themselves are a very heavy duty, premium grade galvanised steel giving years of use and durability.
- **Premium strength steel frame** : This is a frame made to last with premium materials that will give you stability & years of use.
- **Privacy panel**: This annex has a privacy panel which can be used to block the annex off from the awning adding privacy, or simply hiding the contents of the annex from the main awning.
- **Privacy windows**: These are windows that allow light in, but do not allow to see in.
- **Inner tent ready** : The product is ready to take its own dedicated inner tent, which is specifically designed for that product and is simply hung up in place and gives you a dedicated sleeping pod/ bedroom.
- **'Pano-View'** This product has been designed for maximum views, allowing for extra light in and better views when inside, all of which add up to a better experience when using the product.
- **Quick Drying** : The lightweight fabric used on this product is naturally quick to dry, which makes it easier to use and manage.
- **Quest Tec210** is a lightweight 210D polyester fabric with added durability, strength and performance. The advanced UV coating gives it a 2,000mm Hydrostatic head (HH).
- **Quest Tec75** is an extremely lightweight fabric making it easy to use, quick drying and easy to roll and fold making

Canvas Features Guide

your awning easier to pack away. The fabric itself is a 75D polyester with a hydrostatic head of 3,000mm.

- **Quest Tec FullC** is a luxurious 100% cotton fabric, that is waterproof, breathable and performs better in hot and cold conditions. Better fabric for a better experience.
- **Rain safe canopy** : This product has a front canopy which is excellent at keeping the rain off especially when you open the door in the morning.
- **Rear legs** : This product comes with rear legs which are used to hold your draught pads against your van giving you a better fit and more protection from the weather.
- **Removable panels** : This product has removable panels. This makes it easier to use as it allows you to lower the weight of the product when pitching. It also makes it easier to pack away and gives you the option of using the product without the panels in.
- **Roll up front panel** : The front panel on this product can be rolled up when not needed.
- **Scenic windows** are a premium feature found on some bell tents. They are crystal clear windows with internal blinds. They add extra light and air into your tent, usually not found on bell tents but included on this product.
- **Single point inflation** : This air product is inflated from one single point. This makes it easier to use when inflated via an electric pump as you inflate the entire product up from one point.
- **Single person pitch** : This product can be pitched by one person. Before we award this feature we test the product ourselves by pitching it with one person to be 100% sure that it can be done easily enough to claim single person pitch.
- **Small pack size** : The pack size of this product is small. The fabric folds away neatly into a small package. Without the addition of air beams the pack size is kept small.
- **Stable style door** : This is a door that is half height and has an open area to the top.
- **Storm pole(s)** : This product comes with at least 1 storm pole. Storm poles are great at giving extra protection from the wind, rain and can be useful as a place to hang a light.
- **Strong and Secure frame system** : This is a patented frame system that is stronger and more secure than standard ones due to its clever design and framework. It makes the windbreak easier to use, stronger and more stable all in one.
- **Sun canopy front panel** : The front panel on this product can be rolled up when not required and can be used in conjunction with the universal canopy pole kit (purchased separately) to create a sun canopy to the front.
- **Super Tubes** : Super Tubes are larger and stronger tubes than standard air tubes. This means your product performs better in adverse weather as they are stronger and bend and flex far less than other products.
- **Sustainable fabric** : The fabric used in this product is

sustainable, which means it is better for the environment, better for the earth and better for the next generation.

- **Utility shelf** : This is a multi functional shelf which can be used to hold a solar shower or removed when not needed.
- **UV 50+ Protection** : The fabric on this product has been UV treated. This means that it not only protects you it also protects itself and helps the product last longer.
- **Viewing windows** : These windbreaks have window panels in them to allow views through the windbreak.
- **Ventilation windows/doors** : This product has dual layered windows or doors. This allows you to open the window or door to the mesh. This allows air flow through the product, but stops wind chill and flying insects from getting in. It also helps combat condensation. The larger the window/door the better the ventilation.
- **Very lightweight** : This product is very lightweight, which makes it easier to use and pack away. The lightweight nature helps towards it being single person pitch as it is easy to pull through the awning channel yourself.
- **Very small pack size** : The pack size of this product is very small. Thanks to the lightweight fabric which rolls and folds down very small and the minimal quick-fit frame you end up with a very small packed away size.
- **Waterproof & breathable** : The full cotton canvas on this tent means that it is both waterproof and breathable giving you protection from the sun and helps stop condensation.
- **Waterproof roof** : The roof on this product is waterproof and the seams have been taped.
- **Zero tension frame** is a quick and easy frame system that tensions itself so you don't have to. You simply open it out, extend the legs and you are done.
- **Zippered carry bag** : This product comes in its own zippered carry bag to make storage and carrying easy.
- **Zip down side panels** : the side panels on this product can be zipped down to give extra protection from the elements. They also feature windows to allow light in when in use and external blinds for added privacy when required.
- **Zippered PVC groundsheet** is a fully zippered, heavy duty premium PVC, giving durability, strength, and better thermal protection. Easier to clean and pack away, plus when taking the tent down you can unzip your canvas to ensure it stays clean.
- **Zip together double doors** : These are large, fully zippered double doors which allow you a huge double width entrance, and can be fully zipped together when required.
- **Zip on / off tunnel** : This product has a zip on tunnel. This means that the product does not need a drive away kit. This saves you money, but also makes it easier to attach to your roll out/wind out canopy. It also improves the performance of awning by giving better protection against the weather.

RANGE FEATURES

The Quest Elite® Bordeaux Pro range is all about comfort and style.

They use the high performance materials, with a premium padding giving you maximum comfort. This is combined with a stunning style to give you a range that performs as good as it looks.

QTex Padded 2D mesh Fabric

This is a premium stretch fabric with added levels of comfort. It combines great levels of cushioned comfort with extra padding for extra comfort along with lasting durability and great weather resistance allowing it to last longer than its rivals. First comes the amazing level of comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric. On top of all this comfort the fabric is also padded which gives you even greater levels of comfort. These chairs really are made for comfort.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is U.V. resistant so offers great resistance to the sun's rays, which also helps it last longer as it takes longer for the sun's rays to damage the fabric. The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. This gives the material excellent weather resistance helping the chair to last longer.

Exclusive Slide Out Side Table

All items in this range have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

Premium Aluminium Frame

This is a premium aluminium frame. First the base material is a premium grade aluminium, selected for its light weight, durability and weather resistance, giving you the best of both worlds, both low weight and great weather resistance. The frame is made even better thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

RANGE FEATURES

The Quest Elite® Naples Pro range is all about lightweight performance.

They use the high performance materials, with a premium lightweight frame to give you an extremely comfortable chair, high on style and very lightweight. The use of the all weather fabric and aluminium frames also gives you excellent performance in any weather. The lounge bed also features the padded version of the QTex 2D mesh fabric.

QTex 2D mesh Fabric

This is a premium stretch fabric which combines great levels of cushioned comfort with long lasting durability and great weather resistance allowing it to be used in any weather. First comes the comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is U.V. resistant so offers great resistance to the sun's rays, which also helps it last longer as it takes longer for the sun's rays to damage the fabric.

The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. When it rains the majority of water runs through the material which means you are only left with a small amount on the fabric which dries quickly. This gives the material excellent weather resistance and means it can be used in any weather.

Exclusive Slide Out Side Table

All items in this range (except the swing) have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

Premium Aluminium Frame

This is a premium aluminium (the recline uses a hybrid steel and aluminium) frame. First the base material is a premium grade aluminium, selected for its light weight, durability and weather resistance, giving you the best of both worlds, both low weight and great weather resistance. The frame is made even better thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

Quest Elite® Naples Pro Range

Details of the individual products in the range

F1324 : The Lounge : The perfect sun lounger, day bed or even a deluxe camp bed. Higher than standard loungers making them more comfortable and easier to get in and out off. The Lounge uses the padded version of the QTex 2D mesh fabric giving you even greater levels of comfort. With the added levels of comfort and its ease of use, this is stand out lounger or bed.

F1321 : The Recline : The smallest packed sized chair in the range. Small and lightweight, but still with a high back, padded cushion and ergonomic back giving great levels of comfort with a low entry price. This chair can be used on its own to eat at a table or simply relax. Add the optional leg rest and it can be turned into a full lounger.

F1322 : The Comfort : This is the perfect blend of the full relaxer and recline chair in one. Added levels of comfort thanks to the elastics and chair design, but the same practicality of an upright chair you can eat at the table with. The optional leg rest can be used with this chair as well to give you a great lounger as well.

F1323XL : The Relax : This is simply the most comfortable chair in the range. Its a zero gravity relaxer giving you amazing levels of comfort whenever you need it. It has also been made XL wide giving a larger and more comfortable seating area.

F1325 : The Rest : Simple but effective. The rest is used with both the recline and comfort chairs to turn them from just a chair to a relaxer or lounger. Extremely lightweight and folds away when not in use.

F1327 : The Bench : A folding bench gives you two seats that can be folded away in seconds for easy storage. The bench folds flat allowing it to be stored away in a small space when not in use. When folded out you get two full size seats, each with its own slide out side table.

F1326 : The Swing : An excellent addition to any outdoor space. The swing gives you three extremely comfortable seats, styled to match the Naples Pro range. The Sun Canopy protects you from the U.V. rays as you sit back and swing in comfort. Removable cushions allow for easier maintenance and cleaning.

RANGE FEATURES

The Quest Elite® Ragley Pro range is all about style and durability.

They use the high performance materials, with a premium electro plated steel frame to give you an extremely comfortable chair, high on style with added durability.

QTex 2D mesh Fabric

This is a premium stretch fabric which combines great levels of cushioned comfort with long lasting durability and great weather resistance allowing it to be used in any weather. First comes the comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is U.V. resistant so offers great resistance to the sun's rays, which also helps it last longer as it takes longer for the sun's rays to damage the fabric.

The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. When it rains the majority of water runs through the material which means you are only left with a small amount on the fabric which dries quickly. This gives the material excellent weather resistance and means it can be used in any weather.

Exclusive Slide Out Side Table

All items in this range have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

Premium Steel Frame

This is a premium steel (the recline uses a hybrid steel and aluminium) frame. First the base material is a very high quality steel which is used for its strength. Due to its quality and strength the thickness of the frame has been lowered to bring the weight down without having to sacrifice strength and durability. The frame is then made even better, thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

Quest Elite® Ragley Pro Range

Details of the individual products in the range

F1304 : The Lounge : The perfect sun lounger, day bed or even a deluxe camp bed. Higher than standard loungers making them more comfortable and easier to get on and off. With the added levels of comfort and its ease of use, this is stand out lounger or bed.

F1301 : The Recline : The smallest packed sized chair in the range. Small and lightweight, but still with a high back, padded cushion and ergonomic back giving great levels of comfort with a low entry price. This chair can be used on its own to eat at a table or simply relax. Add the optional leg rest and it can be turned into a full lounger.

F1302 : The Comfort : A larger version of the recline with added levels of comfort thanks to its elasticated seat. The optional leg rest can be used with this chair as well to give you a great lounger as well..

F1303 : The Relax : This is simply the most comfortable chair in the range. Its a zero gravity relaxer giving you amazing levels of comfort whenever you need it.

F1305 : The Rest : Simple but effective. The rest is used with both the recline and comfort chairs to turn them from just a chair to a relaxer or lounger. Extremely lightweight and folds away when not in use.

RANGE FEATURES

The Quest Elite® Autograph range is a premium range of pack away furniture.

They use the premium materials to give maximum comfort alongside pack and fold away frames to make the pack size smaller. They are the perfect solution for those after small pack sizes but do not want to compromise on comfort.

QTex Weave Fabric

This is a premium hard wearing fabric which comes in different levels of padding and comfort. The material is extremely durable and easy to clean helping it last longer. The base material is a very high quality 600D polyester, but it has a modern PU coating which gives it extra durability and protection from the sun's rays without lowering the comfort levels of the soft fabric. This coating helps the chair to look better and last longer than its cheaper rivals. The fabric also has three levels of padding, Quilted which is the thinnest of the padding and helps keep the pack size and weight down. Then padded, which gives added comfort and finally extreme padded which gives the absolute maximum of comfort available.

Pack Away Frames and Carry Bags

Every chair in this range (except the Surrey) has a pack away frame to make the pack size smaller. These frames simply collapse and fold into a small pack size making them easier to carry and store away when not in use. The Surrey (the directors chair) simply folds flat allowing it to be carried and stored easily when not in use. They all (except the Surrey) also come complete with their own colour coded carry bag which makes them even easier to store away but also offers extra protection for your chair helping them to last even longer.

Premium Aluminium and Steel Frames

All items in this range have the same premium, pack away frames. They are a mixture of aluminium and steel, but all feature the premium electro plated coating which gives added durability and protection against the weather helping them last longer. All the frames pack away to allow for smaller pack sizes, which makes them easier to store away.

FIRE
Retardant

Quest Elite® Autograph Range

Details of the individual products in the range

F3030B : The Cleveland : This is all about comfort. The extreme padded fabric gives maximum comfort and the size and shape of the chair gives you that armchair comfort in a pack away format. Finished with its own carry bag. Perfect for those after the highest levels of comfort available.

F3027B : The Surrey : A classic directors chair with an excellent fold out side table. Quilted for the perfect balance of comfort, weight and pack size.

F3020B : The Cumbria : A pack away recliner. This has a reclining back for added comfort, but folds away into its own carry bag for a smaller pack size.

F3021B : The Dorset : A larger version of the classic camping chair. Made larger for added comfort and uses the quilted fabric for a perfect balance of comfort, weight and pack size. Finished with its own carry bag.

F3025B : The Kent : The extreme padded version of QTex weave fabric gives this chair more comfort. It wraps around you when you sit in it giving extra warmth and comfort. It packs down to a very small size making it perfect when space is at a premium, but you still want the added levels of comfort.

F3029B : The Devon : The perfect stool and foot rest in one. It is a full strength stool that packs away into its own carry case. It can also be used as a foot stool for any of the Autograph range.

F3032 : The Somerset : A unique fold-out quick bed, the Somerset comes in an amazingly small pack size and folds out and zips into place in seconds. Featuring the same premium quality fabric and colour way as the rest of the Autograph range it fits in perfectly and is great to use camping, caravanning or even at home when you need an extra bed in a hurry.

Westfield®
OUTDOORS

Avantgarde and Performance **RANGE FEATURES**

The Westfield Outdoors® range represents the very best furniture available today.

They combine the very best materials and manufacturing processes together to create the perfect folding furniture. Backed with the very best 5 year warranty available they will out perform all of their rivals.

DuraDore 3D mesh Fabric

The Avantgarde and Performance ranges from Westfield Outdoors have a unique fabric called DuraDore 3D mesh. This is simply the most advanced and performant fabric available today. It is a padded fabric that is made for the outdoors. Firstly it is a stretch material that is more durable than other materials so will last longer and perform better. The stretch nature of the fabric also means that it is more comfortable than non-stretch fabric and will last longer as it will give when used and bounce back when not used. It is better against UV damage thanks to its natural structure and the advanced UV coating. The other unique feature about it is that it has a porous fibreglass pad, rather than a standard foam one. This means that the base fabric,, plus the underlying padding is porous it allows moisture through rather than soaking it up. This in turn means that even if the chair is left out in the rain it will dry within 5 minutes. The porous nature also means that it is breathable making it much more comfortable on hot days as well, so this is the very best padded fabric available, built for any weather.

DuraLight Frames

DuraLight is another unique material for Westfield Outdoors. It is a magnesium and aluminium alloy which is lighter and stronger than aluminium. This makes it the best frame available as it is lighter and stronger than its rivals. The alloy is also weather proof so will last longer. The incredible light weight nature of the frame allows the Avantgarde Noblesse chair to be the lightest, fully padded chair on the market, whilst the Advancer XL is the strongest (with its 200kg max load).

Class Leading - Eurorpean Wide Warranty

Every chair in the Westfield range comes with a class leading 5 year warranty. The very best available. It gives you the very best cover possible, for the very best furniture possible. This is not only a class leading warranty, but also a European wide warranty, giving you extra cover and support when abroad.

If you are aborod in the European Union and you have an issue with your Westfield product, your issue will be looked at in the country you are located in. Unlike their rivals you do not have to wait to get home before getting support, Westfield will look into your issue in the country your are in and attempt to resolve it there and then, allowing you to continue enjoying your break, whilst the issue with your Westfield product is resolved.

RANGE FEATURES

The Westfield Outdoors® range represents the very best furniture available today.

They combine the very best materials and manufacturing processes together to create the perfect folding furniture. Backed with the very best 5 year warranty available they will out perform all of their rivals.

DuraDore 2D Mesh Fabric

The Voyager and Ergolounger chairs use the 2D mesh version of the DuraDore fabric. It is the exact same base fabric as the 3D mesh, but contains a standard foam pad rather than the fibreglass one. This gives us the same level of comfort as the 3D mesh, but a lower price point in favour of a slightly lower performance.

Premium Aluminium Frames

The Voyager and Ergolounger chairs use a premium grade aluminium to give the best possible balance between weight and strength. These frames outclass all others with the exception of the exclusive Westfield DuraLight frames.. Simply the best aluminium frames currently available.

Class Leading - Eurorpean Wide Warranty

Every chair in the Westfield range comes with a class leading 5 year warranty. The very best available. It gives you the very best cover possible, for the very best furniture possible. F0061LBS

F0061LGS

F2024

Quest Hampton Range

Details of the individual products in the range

F2024 : The Relax : The Hampton relax is the classic textilene zero gravity relaxer. It can be locked in any position to give you the perfect position every time and features the excellent Hampton two-tone textilene which elevates this above the cheaper textilene furniture.

F2025 : The Lounge : This lounge folds away to a small size and features full length elastics down both sides to give added comfort. It can be used completely flat, which allows it to be used as a bed or lounge, giving you extra options.

F2026 : The Recline : The recline is your standard, fold flat reclining chair, elevated to the Hampton level. First it uses the same excellent two-tone textilene which improves the look of the fabric by giving the textilene a deeper more professional tool. The textilene is an all weather, extremely durable material giving it great performance. The chair reclines allowing for added comfort and is completed with a build in head rest for that finishing touch.
