LYNX

The Lynx is an extremely lightweight, extremely easy to use porch air awning. It can be easily pitched by one person in just 10 minutes.

The Air Erect System gives you two independent tubes making it easier to deflate, but also allowing you to replace or repair any tube on site in the case of emergencies, ensuring you can continue with your break. It features the extremely lightweight HydraDore SL fabric which helps keep the weight down to an amazing 6.25kg*.

It is also designed to be the perfect awning for Basecamp owners as it fits onto the rear of your basecamp, but keeps the weight down to a minimum.

The perfect small awning for those after ease of use.

Features

| HydraDore SL very lightweight fabric. | Air erect system. | Multi point inflation. | Single person pitch. | Very lightweight. | Anti-Weather system. | Internal blinds. | Quick drying. | UV 50+ Protection. | Pop up inner tent ready. | Ventilation side doors (large). | Double beading. | Built in ventilation. | Rear draught pads | Draft skirt and wheel cover |

SNOWDON

The Snowdon is a no-nonsense , solid built to last porch awning.

It uses the amazing HydroTech cotton touch fabric with its 10,000mm HH and 300D density gives unrivalled performance and feels as good as it performs. The material is so good it can be used in any season at any time of the year.

The Snowdon is a poled porch awning, designed to be stronger and more resilient to the weather than any other awning. This is why it gets the permanent pitch approval. The frame gives it the strength to handle almost any weather, coupled with the any season properties of the HydroTech cotton touch fabric and finished with the extremely strong and durable PVC roof this awning is made to last and perform.

Features

| HydroTech cotton touch fabric. | 2 Year warranty. | Any season awning. | Premium strength all season steel frame. | Permanent pitch. | Anti-Weather system. | Internal curtains. | Smaller pack size. | Pop up inner tent ready. | UV 50+ Protection | Roll up front panel (fully zipped). | High performance PVC roof. | Fully adjustable frame for better pitching. | Rear legs. | Rear draught pads | Draft skirt and wheel cover. | Rear draught pad pole clips. | Heavy duty storm straps, ground anchors and springs. |

KENSINGTON

The Kensington is a traditional family porch awning, given a new level of performance and luxury thanks to its amazing Hydrotech cotton touch fabric, with its 10,000mm HH and 300D density gives unrivalled performance and feels as good as it performs.

The porch is easy to pitch and thanks to its adjustable frame can easily handle uneven ground and difficult pitches, far better than its air rivals. The awning can be extended by the use of one or two Westminster annexes which simply zip onto either side of the awning.

Styled like a traditional awning, this is the perfect porch for those after that extra level of luxury and don't want to use air.

Features

| HydroTech cotton touch fabric. | 2 Year warranty. | Any season awning. | Premium strength steel frame. | Anti-Weather system. | Internal curtains. | Smaller pack size. | Annex ready. | Pop up inner tent ready. | UV 50+ Protection. | Removable panels. | Fully adjustable frame for better pitching. | Rear legs. | Rear draught pads | Draft skirt and wheel cover. | Rear draught pad pole clips. | Can be used as a canopy. | Heavy duty storm straps, ground anchors and springs. |

WINDSOR

The Windsor has two main roles, first it is your traditional winter porch, and second it is perfect for those simply after a smaller porch but not wanting to compromise on performance .

It uses the amazing HydroTech cotton touch fabric with its 10,000mm HH and 300D density gives unrivalled performance and feels as good as it performs. The material is so good it can be used in any season at any time of the year.

The small and perfectly formed awning is great in any weather, with the rain safe canopy at the front, high slope roof, extremely strong frame and any season fabric it is built to last. The adjustable frame also helps pitching on uneven ground improving performance even more.

Features

- | HydroTech cotton touch fabric. | 2 Year warranty. | Any season awning. | Premium strength steel frame. | Single person pitch. | Anti-Weather system. | Internal curtains. | Smaller pack size. | Pop up inner tent ready. | UV 50+ Protection. | Removable panel. | Fully adjustable frame for better pitching. | Rear legs. | Rear draught pads. | Draft skirt and wheel cover. | Rear draught pad pole clips. | Heavy duty storm straps, ground anchors and springs. |

AIR
Porch Awning

Model shown : Falcon Air 390

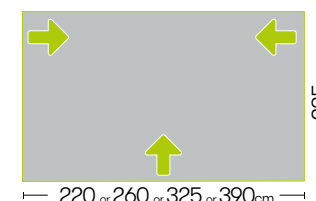

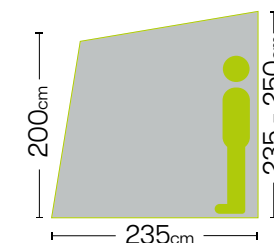

FALCON *Air* | Porch

The Falcon Air porch is a true lightweight air awning. It combines the ease of use of an air porch with the added lightweight nature of a true lightweight porch to give you an extremely easy and quick to pitch porch.

The Falcon Air Technology (FAT) system gives you a single main beam which only takes a minute or two to inflate, even less to deflate. The added storm straps give you added ground anchorage and protection from the wind, plus on the 325 and 390 models you get extra air beams for the roof, to give you added stability over the larger roof.

It uses a lightweight 150D material giving a perfect balance between light weight, quick dry, performance and price.

AIR
Drive Away

Model shown : Falcon Air Drive Away Low Top

FALCON *Air* | Drive Away

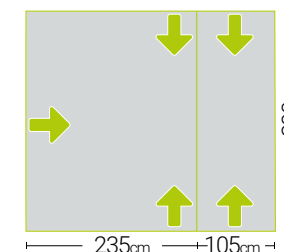

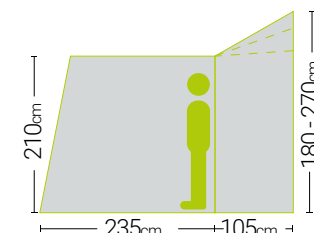

The Falcon Air drive away is a very lightweight air drive away that gives you all the performance and space you need without any extras you don't need, keeping the awning simply to use, lightweight and uncluttered.

The Falcon Air Technology (FAT) system is simplicity itself and can even be fixed on site by yourself if the very worst happens. You get extra roof beams (optional for use) to give you added stability, it is up to you.

Combine this with the lightweight yet durable 150D fabric you get great performance without the weight of the heavy awnings. The large panoramic windows all around allow an amazing amount of light in letting you appreciate the outdoors even when inside.

POLED
Porch Awning

Model show : Falcon 325

FALCON | Porch

The Falcon porch is an extremely lightweight poled awning. Perfect for anyone after a simple no-nonsense porch awning, or anyone who simply does not want an air awning.

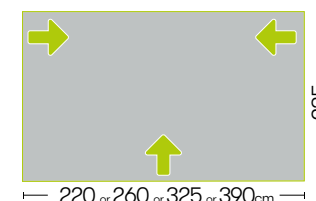

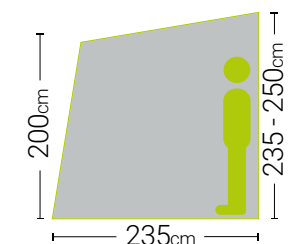

The extremely lightweight 75D material gives you an incredibly lightweight porch of only 4.35kg (awning weight only) which means it is even extremely easy to pull through the awning rail if there is just one of you.

The minimal quick pitch frame means that you get the advantages of an adjustable frame (better pitching on uneven ground) but still extremely easy to pitch as it uses only one pole.

Quick, easy, extremely lightweight and amazing value - The Falcon porch.

POLED
Drive Away

Model show : Falcon Drive Away High Top

FALCON | Drive Away

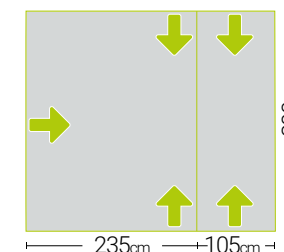

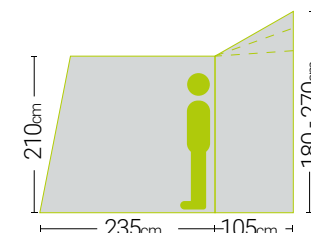

The Falcon drive away is all about lightweight, ease of use and value for money. It uses the minimal quick fit frame system which ensures you had an adjustable frame to make it simple to pitch and caters for uneven ground, whilst keeping the number of poles down to a minimum to keep it simple to pitch.

Thanks to the use of a pole system rather than air it gives amazing value for money, but also offers the perfect solution for those whom simply do not want an air awning.

The extremely lightweight 75D fabric gives you the performance you need in an amazingly low weight (less than 10kg) making it even easier to pitch.

GOBI

Say hello to the small but perfectly formed Gobi bell tent. It is designed to look like a traditional frame tent, but with the simple and strong Bell tent frame system, means that it is simplicity itself to pitch, even for one person.

It uses the premium, performance grade Quest Tec FullC 100% cotton fabric. This fabric is waterproof and is breathable, which means it is more comfortable inside when hot, plus the natural fibres shrink when cold giving better thermal protection, but expand when hot improving the breathability.

Perfect for a small family or a couple out on a weekend, it comes with the privacy panels allowing you to partition off the sleeping area if you wish, the Gobi is proof that great things come in all sizes.

Features

- | Quest Tec FullC canvas. | Waterproof and breathable for added comfort.
- | Ventilation door. | Premium minimal pitch fame. | 2 Year warranty. | Any season tent. | Includes partition wall. | UV 50+ Protection. | Fully tubbed PVC groundsheet. | Premium NoChill mesh. | Premium guy ropes. | Ground anchors.

CLASSIC BELL

The classic bell is the original glamping tent. With its minimal pole design (only two poles) it is so easy to pitch that one person can do it on their own in under 15 minutes and that includes the pegging !

Built using the premium 100% full cotton fabric to give unrivalled performance this will give you years of use and happy memories. It has added ventilation all around , a zip on or off groundsheet to make it easier to pack away. You can even roll the sides of the tent up allowing for a 360 degree vista view and complete airing of the tent if required. Completed by heavy duty ground anchors (far stronger than pegs), premium guy ropes rather than guy lines and large easy to use hand sliders this is a true no-compromise bell tent.

Features

| Quest Tec FullC canvas. | Waterproof and breathable for added comfort. | Ventilation doors (large). | Premium minimal pitch frame. | 2 Year warranty. | Any season tent. | 360° Vista view. | UV 50+ Protection. | Inner tent ready. | Zipped PVC groundsheet. | Premium NoChill mesh ventilation with covers. | Premium guy ropes. | Ground anchors. | Premium hand sliders. | Sustainable fabric. | Single person pitch. | Built in roof ventilation. |

TOUAREG

The Touareg is the modern relative to the classic bell tent. It takes the ease of use of the classic bell tent (single centre pole) and switches the A frame door to a large N shaped doorway to give extra space and headroom, plus an extra doorway at the back to give you the perfect family bell tent.

It uses the same premium 100% full cotton Quest Tec FullC fabric which gives you breathability, waterproof and improved thermal protection that all our bell tents use ensuring maximum performance for years to come, but gives added space and usability thanks to its clever shape and design.

Perfect for larger families or people after that extra space in a simple package, that can be pitched by one person in under 20 minutes.

Features

| Quest Tec FullC canvas. | Waterproof and breathable. | Ventilation doors (large) and built in roof vents. | Premium minimal pitch frame. | 2 Year warranty. | Any season tent. | 360° Vista view. | UV 50+ Protection. | Inner tent ready | Zipped PVC groundsheet. | Premium NoChill mesh ventilation with covers. | Premium guy ropes. | Ground anchors. | Premium Hand sliders. | Sustainable fabric. | Scenic windows. | Internal blinds (zipped). | Single person pitch. |

EMPEROR

The Emperor is a statement tent. Looking as grand as a big top with high roofs and a huge amount of space inside, this is true glamping. The Emperor uses the premium 100% full cotton Quest Tec FullC fabric which gives you breathability, waterproof and improved thermal protection.

There is a huge amount of space inside, made to feel even bigger by the high roof the emperor stands tall and is the envy of all on the campsite, yet it is still extremely easy to pitch. With only 3 A frame poles for the doors and the double roof pole it can easily be pitched in under 15 minutes (and that includes the pegging !).

Why camp when you can glamp !

Extra large tarp shown on Touareg tent

TARPS & INNER TENTS

Universal Tarps

These are our excellent universal tarps. They are made to fit into the Quest Elite® Signature Bell tent range, but can be used with virtually any tent, awning, porch or vehicle. They feature the same **Quest Tec FullC 100% cotton fabric** and **heavy duty guy ropes** and **hand sliders** to match your bell tent perfectly.

Tarps have multiple uses, they can be used as a porch or a windbreak for your tent. They can even be used for a porch for your awning, a camper van canopy, or a connector from your bell tent to your vehicle even a stand alone shelter or dining tarp, and much much more.

5 Star Premium Inner Tents

These are our excellent 5 star premium quality inner tents. They are made to fit into the Quest Elite® Signature Bell tent range, but can be used inside others bell tents as well. They have a full **100% breathable cotton** upper. **Easy clean, hard wearing dual layered PVC base** gives extra durability and comfort from the ground.

Full **dual layered ventilation doors** and a **zip open/close partition wall** gives you lots of different options and the storage pockets inside are a great place to keep things in place. They also have **extra fully zipped vents** around the base that match up with the vents on your tent allowing you full control over air flow in and out of the inner tent.

120054G : Screen House 4 Side walls • One pair of grey sidewalls for use with the Screen House 4

Screen House Pro Canopy

SCREEN HOUSE EXTRAS

Screen House Pro Vehicle Connector

Built to fit the Screen House Pro the vehicle connector is designed to connect your screen house to a vehicle. It connects to vehicles between 180 and 210cm and simply zips onto the existing accessory zip and instantly gives you tunnel connector with two doors on. The connector features double beading (4 and 6mm) on to allow fitting into an awning channel, or use with a drive away kit, The vehicle connector can also be used on its own on your vehicle to give you a sheltered cover over your door and can even have the canopy zipped to the front of it to give you a canopy and cover over your door.

Screen House Pro Canopy

The Screen House Pro canopy fits both the Screen House 4 Pro and Screen House 6 Pro. It simply zips onto the existing accessory zip

on your screen house pro in seconds and instantly gives you a large canopied area to the front. It comes with storm straps and pegs so there is nothing extra you need. The fibreglass pole at the front of the canopy can be pegged in different positions (further in or out) to higher or lower the canopy and to change the shape of the canopy.

Screen House Side Walls

The Screen House side walls are sold in pairs and they are used to give extra weather protection when the weather is bad or extra shade when the sun is out, or extra cover from the wind and rain when the weather is worse. They only take seconds to put on and can also be used (in conjunction with the universal canopy pole kit) as an additional sun shade on the side of your screen house.

Wind Break

The image above shows the windshield pro, door panel and additional panel all together.

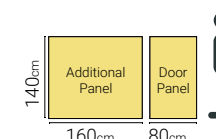

WINDSHIELD PRO

The Windshield Pro is a premium, modular windbreak system. It has been designed from the ground up to deliver the very best in windbreak performance plus giving unrivalled extendibility, all in a lightweight small pack size.

It comes as a 3 panel main unit, which you can then add additional panels to, door panels to, even a weather canopy to. You can even connect as many main panels together. It allows you to create as large a windbreak as you wish. The addition of the dog guard option in 2020 gives you not only the option of adding bars to help ensure those pets of yours cannot escape, but also extra ground anchorage points for hard ground and added stability.

WIND BLOCKER

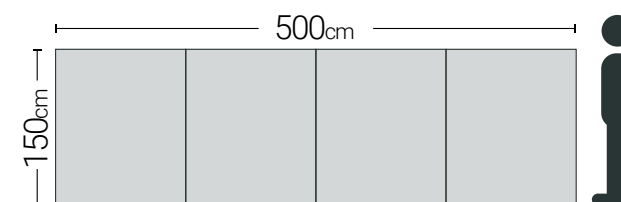

The Winblocker is the perfect companion to the premium signature range of bell tents.

It features the same 100% full cotton fabric, so it not only matches the style and colour of your Bell tent, but also its performance. It is not only the perfect companion to the signature bell tents, but also a premium wooden poled canvas windbreak.

It comes with the same heavy duty ground anchors and guy rope rather than guy lines giving you added durability and years of extended use.

Features

| Quest Tec FullC canvas. | 2 Year warranty. | Any season fabric. | Single person pitch | Sustainable fabric. | UV 50+ Protection. | Premium guy ropes. | Ground anchors. | Premium Hand sliders. |

Pitch Times

1 person : 5 mins
2 people : 3 min

FALCON AirShield

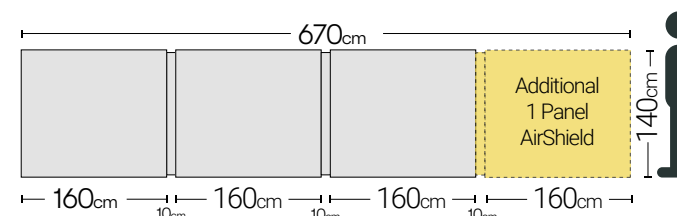

This is the all new Falcon Airshield. It is a modular air windbreak. Modular as every panel zips together, even when you purchase the 3 panel main unit it still comes as three separate panels that you can zip together, allowing you to use as many (even as few as 1) as you actually want.

It also means that you can extend the shield, simply by purchasing additional panels or even another 3 panels and putting them all together. It also means that the windbreak can be pitched at different angles as every panel can be moved in a different direction.

With its dual inflation points on each panel and the use of the Falcon Air Technology (FAT) system it also ensures it is easy to pitch.

Features

| Quest Tec150 lightweight performance fabric. | Falcon Air Tech Air System. | Lightweight. | Single person pitch. | Small pack size. | Dual inflation points. | Independant panels. | UV 50+ Protection. | Viewing windows. | Each panel zips tpogether. | Extendable to any size. | Use as many or as few panels as you want. | Main unit comes with its own pump. | Each panel can be angled to allow for different shapes when pitching | Comes with caravam awning channel connector to allow direct connection to your caravan. |

FALCON 500

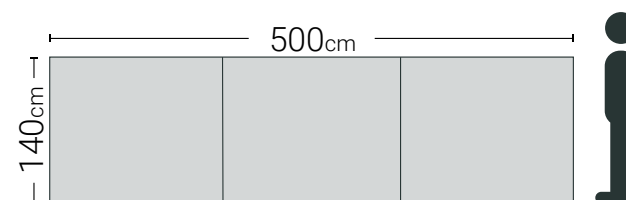

The Falcon 500 windbreak is all about value for money and pack size. It is extremely lightweight (less than 2kg) and extremely small (only 57 x 14 x 11 cm) in size. This means it is extremely easy to carry and put away when not in use.

It has metal poles and guy lines for pitching and even comes with 6mm beading to allow it to be slid directly into a caravan awning channel.

All this plus its own zipped carry bag comes at an unbelievable price meaning this is the perfect windbreak for those after a simply, value for money windbreak that just happens to be extremely lightweight and extremely small when packed away.

Features

| Quest Tec75 very lightweight fabric. | Single person pitch. | Very small pack size. | Very lightweight. | Quick drying. | Viewing windows. | Guy lines. | Zipped carry bag. |

Pitch Times

1 person : 6 mins

2 people : 4 min

SCREEN SHIELD

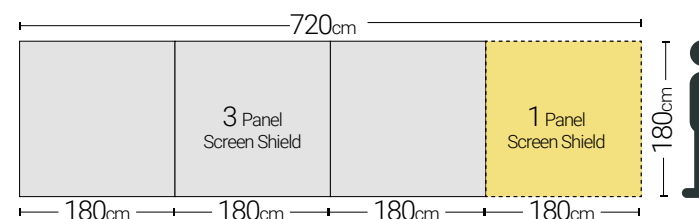

This is the Screen Shield. It is a modular windbreak based on our class leading screen house range. You can use it on its own or zip as many of them together to give you any length of screen shield you require.

The screen shield is just popped into position rather than out together, making it easier to pitch than other windbreaks. It can be zipped onto the accessory zip on the front of your Screen House Pro allowing you to create a protected area to the front of the screen house.

It is also tall - very tall for a windbreak, it is 160cm tall, giving you even more protection from the elements, but with its large windows in the top of the panels still allowing you great views of the outdoors in any direction.

Features

| Quest Tec210 lightweight fabric. | Single person pitch. | Lightweight. | 60 seconds to erect. | UV 50+ protection. | Premium hub system. | Extendable. | Zips directly to Screen House Pro (all models). | Viewing windows. | Guy lines. | Aluminium stability pole(s). | Zipped carry bag. |

MARGATE

This is the Margate windbreaker. The traditional, no fuss beach use windbreaker. Everyone has seen them, everyone has used them, either themselves or with memories of beach holidays gone by.

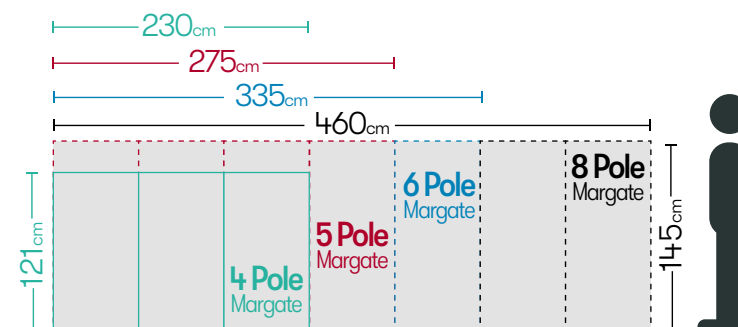

Lightweight, extremely good value for money and perfect for using on the beach. Simply unwind, roll out and knock into the sand.

It comes in four different sizes : 4 Pole at 230 cm length, the 5 Pole at 275 cm, the 6 Pole at 335 cm and the colossus 8 Pole at 460 cm in length.

Just choose your size, take them down to the beach and enjoy.

Features

| Very lightweight. | Wooden poles. | Bright hi-vis design. | No fuss, easy to use. | Pole tops for added durability. | Extremely good value for money. | Multiple sizes available. |
