Storage , Care and Cleaning

Details on how to look after your product.

Storage

To help keep your product looking newer for longer and prolong the life and use of the product, we recommend that the product is kept in its carry bag when not in use.

If the product is not going to be used for an extended period (such as a winter period) we recommend that it is carefully folded away and stored in a clean, dry and free from damp location.

Care and Cleaning Instructions

Never use and harsh or abrasive cleaners or brushes when cleaning this product as the frame and fabric may be damaged when doing so.

Never fold and put the product away when wet as this can trap water in the product, which can lead to mould and mildew build up.

- **Fabric :** We recommend using warm soapy water to clean this product as the chemicals inside certain cleaner can cause damage. After it has been cleaned, rinse with clean water to make sure there's no soap left inside the fabric. Once rinsed allow the product to dry naturally before folding away and storing.
- **Frame :** First allow any dirt to dry and brush with a soft brush to remove loose dirt. Once this is done wipe the frame down with warm soapy water and a soft cloth. Once cleaned allow to dry naturally before storing away.

Folding and Unfolding

Details on how to use your product.

Folding and Unfolding

The shelf unit can be configured in multiple different ways, our instruction shows how to put the unit together in one tall shelf, but you can have it whichever way you like.

- Remove the shelving unit from the bag and start putting together each shelf as shown in image 1.
- Start with the bottom shelf. Take 2 side beams (2), 4 cross bars (1) and 1 shelf panel (B), which is the smaller (thinner) of the two panels. Slide a cross bar into each end of the shelf panel and push one end into the side bar. Then push another two cross bars into the side beam. Then push another side beam onto the other side of the 4 cross bars.
- Now take two side panels (A) and another 4 corss bars (1). Push a cross bar into the top of each corner of the side beams. Then slide the side panel over each of the upright cross bars.
- Repeat this process with each shelf and then push each shelf onto the top of the previous shelf as show in images 2 and 3.
