Usage

- The tidy can be used with or without the upright poles. These poles help the tidy hold its shape, but you can use the tidy without the poles to allow it to be folded even when in use.
- You should never pick the tidy up by the frame. Always use the attached handles.
- You should never overload the tidy as this could lead to damage when it is picked up.
- If you have loaded it with a large amount of items we recommend picking the tidy up from the bottom of the tidy and not with the handles.
- Never leave wet items for long periods of time in the tidy as this can lead to mould growth.
- If you have had wet items inside the tidy, once they are removed turn the tidy inside out and ensure it is dried thoroughly before next use.

Upright poles

- To use the included upright poles, follow the process below.
- Take the tidy and place onto the ground.
- Take one of the four fibreglass upright poles and slide it into the corner sleeve on the tidy.
- Then ensure the velcro cover is put in place to hold the pole in place.
- Removing the poles is the reverse of the process above.

Storage

If the product is not going to be used for an extended period (such as a winter period) we recommend that it is carefully folded away and stored in a clean, dry and free from damp location.

Care and Cleaning Instructions

Never use harsh or abrasive cleaners or brushes when cleaning this product as the frame and fabric may be damaged when doing so.

Never fold and put the product away when wet as this can trap water in the product, which can lead to mould and mildew build up.

- **Fabric:** We recommend using warm soapy water to clean this product. After it has been cleaned, rinse with clean water to make sure there's no soap or cleaner left inside the fabric. Once rinsed allow the product to dry naturally before folding away and storing.
- **Frame:** First allow any dirt to dry and brush with a soft brush to remove loose dirt. Once this is done wipe the frame down with warm soapy water and a soft cloth. Once cleaned allow to dry naturally before storing away.
