## Grangers Fabsil

Nothing takes the fun out of camping like a leaking tent, but by using the Fabsil range of products you can keep your tent performing at it's best.

Fabsil replicates the original finish applied at manufacture.

By using it you can restore the waterproofing of tents and other equipment, allowing them to perform like new.

### Fabsil Liquid

A highly effective silicone-based water repellent treatment for all kinds of tent, tarpaulin, canopies and awning fabrics. Dries to an odourless and colourless finish. UV treatment will extend the life and performance of tent fabrics. 1 litre will cover upto 18sq metres of nylon, 7.5sq metres of light weight canvas and 5sq metres of medium weight canvas. A light 2 person tent is approx 6sq metres.

## Furniture

### Quest Elite® Quick Up Range

The Quest Elite quick up camping range is a range of camping furniture with an exclusive easy to use quick up system that means it only takes seconds to erect your furniture. All these items feature the same 'easy clip' system that means erecting the product is just a case of opening the product out and clipping the hook in place, nothing could be simple or quicker.

There is nothing to assemble, or adjust, just clip the easy clip system in place and you are done. All the products feature premium quality materials and workmanship. They feature high quality onyx effect shelves, fully zipped and tie backed doors and various different configurations. All the items fold away in seconds and come with their very own high quality carry case making them easy to store and carry.

## Quest Elite® Rolli Awning

The Rolli Awning is a top of the range, state of the art roll out awning. The awning is secured to the side of your van (even while en route) and when you get to your destination you simply unroll the awning out, adding whichever features you wish afterwards.

The walls are made from the excellent Quest Tec5 material which is not only lightweight, but extremely strong and durable. Quest Tec5 is so durable that it is covered by a 5 year anti-fade warranty. The roof is made from a double coated, heat reflective PVC which is one of the strongest roofs on the market. The heat reflective nature of the roof together with the full ventilation windows means during the sunny weather the awning is kept noticeably cooler.

The entire front wall can be rolled up if required giving you a great open front to your awning and the door can be switched to the left or right hand side of the awning simply by unzipping it from one side and zipping it back into the other. The awning can also be put up in different modes.

- **Sun or Rain Canopy:** Only the roof is used so you're left with an excellent canopy and fully open sides.
- **Partial Awning:** The roof and either the side walls or front wall are put in place. This allows you to have an excellent canopy, but with extra cover from the elements if needed.
- **Full Awning:** The roof, side and front wall are all erected so it's a full awning. The advanced materials and features of this awning make it one of the very best roll out awnings on the market.

**Quest Easy Gazebo**

**Case Pack 4**

This is a high quality gazebo for use anywhere outdoors.

Strong yet light, this steel frame makes this gazebo very stable and easy to use. The unique frame design and locks make this gazebo easy to erect. There is no frame to put together, simply take the gazebo out of the bag and unfold the frame, twist the lock and extend the legs on each corner and you are ready to go.

It also features unique elasticated straps in the centre of each side ensuring that the roof is held down tight even in windy conditions. Extra strong guy points on all corners mean it can be pegged out (using the excellent extremely strong metal pegs) to help in windy conditions. The legs are adjustable so the height of the gazebo can be changed to suit your requirements. It has an extremely high roof ensuring that you have as much roof clearance as you need.

As well as the easy to use nature of the design, and the additional features the entire frame has an extremely durable coating and the canvas is high quality, durable and features an internal UV coating which helps ensure the best protection against the elements and increases the lifespan of this quality gazebo. The entire gazebo, pegs and guy lines come complete in one high quality bag with wheels on the bottom for ease of use. The bag features zipped compartments to the front and extra straps along the back.
