2019 Outdoor Leisure Catalogue: Welcome

Welcome to the great outdoors

Established for over 30 years, Quest Leisure is a leading supplier of quality products to the caravan, camping, outdoor leisure, home and garden sectors. We love the great outdoors and design our products to help you make the most out of the great outdoors. We use and test our products ourselves and as such will find design tweaks and added features on our products that we have added using our own experiences.

Buy with Confidence

To be certain of obtaining higher quality products made to the highest possible standards, where manufacturing and testing processes are truly thorough, buy with confidence from Quest.

Not only do we have our own agents worldwide, you can be assured that we visit every one of our suppliers each year to give you a guarantee of continuous quality and confidence that products, processes and delivery match our excellent standards.

Always looking to improve our services, we have invested in our own infrastructure and, have dedicated staff covering all areas of our business on hand to help or offer guidance; simply give us a call.

At Quest we offer extra services and support to all of our customers as standard. These extra services and support are available to any of our customers, at any time and without any extra costs.

Dedicated Staff

We have a dedicated returns, parts and service team who look after all our returns and help with requests for parts and information on our products. We have multiple lines coming in on our standard number (01527 516518) which comes straight through to our office team who not only process your orders, but also provide first line help and support to all of our customers.

We have a dedicated Canvas Queries team who look after all the queries, issues, warranties and registrations of our canvas models and are available to all of our customers.

Automated Services

We also offer automated stock services to any of our customers. This could be a simple automated email that lets you know current stock levels every day, or a full blown export of our products which contains, barcodes, stock status, extended descriptions and anything else.

We have also introduced a website extract which is specific to yourself and contains all the required information to help you maintain and update your own website easily and efficiently.

WEEE & Packaging Compliance

We have just introduced automated WEEE and Packaging Waste exports for customers as well.

We know how difficult and time consuming collecting all the information required for the Government WEEE and Packaging regulations is, so we have done all the work for you and can simply email you the details whenever you wish.

We are always expanding the services we offer to our customers and if there are any specific requests you have, simply ask and we will investigate for you.

Electrical and Gas: Platinum batteries

We at Quest Leisure have always teamed up with Platinum International and the implementation of the NCC verified battery scheme shows you why. Platinum have one of the largest selection of NCC verified battery ranges available from any manufacturer.

This means that you can get any battery, for any purpose from one single supplier, making it easier than ever before.

It's What's Inside That Counts

Verified Leisure Battery Scheme

What Is The Scheme?

This scheme provides product verification for batteries used in leisure vehicles. With modern leisure vehicles featuring more technology and electrical appliances than ever before, buying an NCC verified leisure battery will give you confidence that the battery purchased is fit for purpose and will perform as advertised.

Battery Classification

The NCC have verified the performance of the label specification on batteries to ensure that you can buy with peace of mind. The batteries will be verified and labelled accordingly into three categories, A, B and C, depending on their category and purpose. By using your knowledge of how you use your caravan or motorhome, you can then choose the best battery for your vehicle.

Intended Purpose:
Frequently used without electrical hook-up

LEISURE BATTERY CLASS A

- ▶ 350+ Life Cycles at 50% Depth of Discharge
- ▶ Minimum Capacity 90Ah

Trojan Range Platinum Leisure AGM Plus Range Odyssey Range

• Class A is for batteries with a higher storage capacity for people who frequently use their caravans or motorhomes away from electrical hook-ups and require high power to operate devices such as microwaves and motor movers. Class A verified batteries typically have 10x more cycles than a Class C Battery.

Intended Purpose:
For use with electrical hook-up with minimal off-grid habitation usage e.g. Lights, TV

LEISURE BATTERY CLASS B

- ▶ 200 - 350 Life Cycles at 50% Depth of Discharge
- ▶ Minimum Capacity 90Ah

Bosch Leisure Range

• Class B batteries are aimed at those who frequently use sites with hook-up facilities, but require a greater battery capacity to operate TVs and other devices. Class B verified batteries typically have 3x more cycles than a Class C Battery.

Intended Purpose:
For use with electrical hook-up with minimal off-grid usage e.g. Lights

LEISURE BATTERY CLASS C

- ▶ 70-200 Life Cycles at 50% Depth of Discharge
- ▶ Minimum Capacity 60Ah

Platinum Leisure Range

• Class C is for users that require a lower capacity battery to cover basic operation of their habitation equipment for short periods away from a hook-up.

PLATINUM LEISURE AGM PLUS

360 CYCLES

Specifically Designed for

FEATURES & BENEFITS

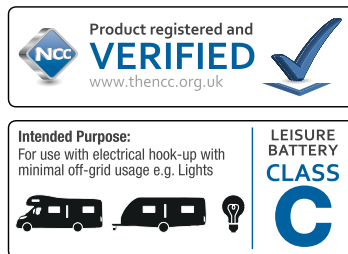

- **Designed For Motor Movers** - Designed to cope with the arduous demands placed on the battery by the Motor Mover
- **Advanced Plate Design** - High pure lead oxide gives high resistance to corrosion and reduces self-discharge therefore offers greater storage time
- **Absorbed Glass Mat Separators** - Increases cyclic capability allowing the battery to be discharged and recharged over 360 times, resulting in longer service life
- **Sealed Construction** - Unique construction ensures no electrolyte leakage from terminals or case. This allows fitments in any orientation
- **Gas Recombination** - Recombines any gasses created during normal usage, totally maintenance free
- **Sealed Low-Box** - Ideal where the fitment location of the battery is restricted

Platinum AGM Batteries

FEATURES & BENEFITS

- **PLATINUM Brand Name** - Is synonymous with premium quality and the very best performance, giving the consumer complete confidence in the product
- **State Of Charge Indicator** Easy to use visual indicator to check the battery's charge and acid levels
- **Engineered For Durability, Cycling And Extended Life**
- **Maintenance Free** - Fit & Forget
- **Sealed Low-Box & Dual Post Batteries** - Ideal where the fitment location of the battery is restricted or where multiple battery connections are required.
- **Labyrinth Lid Technology And Spark Arrestor** Allows emissions to be safely exhausted externally from the caravan or motorhome with added protection against gas combustion within the battery

TROJAN DEEP CYCLE

600 - 1000 CYCLES

FEATURES & BENEFITS

- **Trojan Grid Technology** - Trojan's grid technology is a lead antimony alloy grid mixture which provides enhanced power
- **Maxguard T2 Separator** - Provides greater strength resulting in a longer battery life
- **Up To 10 Times Longer Life** - Than a standard Leisure battery
- **Alpha Plus Paste™ With T2 Technology™** - Maximum Operating Performance
- **Faster Recharging** - Capabilities from the AGM & Gel range

- **Robust Plates** - Extends the service life
- **Specialist Fitment** - Suitable for large Motorhomes and RVs
- **Comprehensive Range** - Available from 76 – 230 amps, with multiple terminal options
- **Up To 5 Times More Cycles** - Than a standard Leisure battery
- **Gel Batteries** - Designed to cope with a Deeper Depth of discharge where charging is infrequent
- **AGM Batteries** - Completely sealed, faster recharge than lead acid

BOSCH LEISURE

200 CYCLES

FEATURES & BENEFITS

- **Ion-Permeable Pocket Separator** - Prevents contact between positive and negative plate – for longer service life and higher starting power.
- **Patented Powerframe (Grid) For Optimum Current Flow And Reduced Corrosion** - The flow-optimized grid design of the Powerframe guarantees consistently high starting power and a long service life. In addition, a special alloy ensures high corrosion resistance and a significantly lower self-discharge

- **Leak-Proof And Tilt-Proof Up To 45°**
- **Backfire Protection** - High safety thanks to its backfire protection and the labyrinth lid returning condensed water to the battery
- **Absolutely Maintenance-Free** - Fit & Forget
- **Set Of Plates With Particularly Robust Connection** - The central arrangement of the connectors between positive and negative plates ensures additional stability

ODYSSEY EXTREME

650 - 1850 CYCLES

FEATURES & BENEFITS

- **Tin Alloy Coated Brass Terminals** - To ensure secure, corrosion free cable connections, our brass terminals are coated with a high-quality tin alloy
- **Packed with More Power** - Increased cyclic capabilities from a low box size battery. Perfect for Motor Movers!
- **Robust Intercell Connections** - To resist vibration and eliminate internal sparking, cell connectors are casted to the plates and bonded

- **Compressed AGM Plate Separators** - For extreme vibration resistance, the AGM plate separators are compressed before being inserted into the case
- **Pure Lead Plates** - To provide more power, the plates are constructed from 99.99% pure lead. The plates are extremely thin, so more of them can fit into the battery. More lead plates means more power

Electrical and Gas: Kipor generators

KIPOR generators are the perfect choice for you and your customers.

Everything is done for you. You can keep just enough stock to ensure no lost sales and all extra stock is sent direct to your customer without you having to do anything. Even support is handled for you as the support is done direct with Kipor, so you don't have to worry about a thing.

For the end consumer they are an excellent choice as they represent the very best balance between price, performance and features. They have virtually the same performance and features of the very best generators, but with a much, much lower price tag.

Ideal for RV, Camping, Home applications and many more. All the generators have the following features:

- Clean, high quality power • Lightweight • Compact and Portable • Environmentally friendly
- Okay for even the most sensitive electronic equipment • Low Noise Design • Highly Fuel Efficient
- Automatic Overload Shutdown • Low Oil Level Protection • Automatically adjusting engine speed
- Superior Engine Performance

What is Lazy Back and Lazy Recline ?

Both are brand new frame systems that give the chair extra comfort.

The **Lazy Recline** allows the small compact chair recline all the way back to give an additional reclined position, not normally available on such a small compact chair.

The **Lazy Back** has a tilting back rest, which gives extra comfort when using the seat as it allows a more natural position for your back and allows for a smaller packed size.
