Terms and Conditions

Some of the boring stuff that we all actually need to know

Carriage

Orders in excess of the amount listed below will be carriage free. All orders under this amount will attract a carriage surcharge. Any area's not covered by the list below will be arranged individually.

- Mainland UK : £250.00
- Northern Ireland : £500.00*
- EIRE : £500.00*
- Channel Islands : £500.00*
- Isle of Man: £500.00*
- Scottish Highlands: £500.00
- Mainland Europe: £1,000.00*

*Carriage to Northern Ireland, EIRE, Channel Islands, Isle of Man and Mainland Europe may incur an additional freight cost based on the order value and the freight charges at the time of order.

Brexit Amendments

Due to issues, delays and additional paperwork for any orders to Mainland Europe, EIRE and Northern Ireland, there could be additional costs or requirements for carriage to these areas. This is a developing requirement, and the terms and conditions will be updated as the situation changes.

Receiving Goods

Please ensure that you and your staff sign the carrier's consignment notes for the correct number of boxes (or products) actually received. Any discrepancies must be notified of immediately. There can be no claim for shortage of boxes (or products) signed for.

Settlement Terms

All accounts are due for settlement 30 days from the date of invoice, unless other trading terms have been agreed by both parties.

Freight on Board (FOB) Terms.

All FOB orders will be subject to a 30% deposit on confirmation of the order and 70% settlement on shipment (from country of origin) of the order, unless other trading terms have been agreed by both parties.

All FOB orders are subject to a 2% return rate, where only when returns are over a 2% threshold can any claims be made against them.

Terms and Conditions

Some of the boring stuff that we all actually need to know

Overdue Accounts

Any accounts that have not be paid in full by the settlement day will be considered overdue, unless previously agreed upon by Quest Leisure and the retailer. An interest charge of 2% per calendar month will be applied to all overdue accounts. Legal fees and expenses of recovery will be recharged to the customers.

Returns

Carriage charges for goods returned to us via your own carrier are non-redeemable without prior authorization. Goods returned should be notified under separate cover stating invoice number and reason for return.

NOTE: Only complete items in new condition will be replaced or credited to your account and no cheque or cash refunds will be issued.

Product Descriptions, Size and Weights

All product descriptions, sizes and weights are approximate and for guidance only. We reserve the right to amend or rectify and of these details without prior notice.

Prices

All prices are subject to alteration without prior notice.

Retention of Title

The property on all items sold by the company shall remain with the company until such sums at any time owing to the company under this or any other contract have been paid in full. The company reserves the right to repossess the items at any time and from any person, firm or company and from any place until such sums due to the company have been paid in full.

Quotations

All quotations are valid for 28 days from the date of the quotation.

GDPR

Data protection and safety for both yours and our data

General Details

This is the GDPR statement for Quest Leisure. It was first released in January 2018 and will be updated and maintained as required by law and any changes to our processes would be documented here. This statement covers all electronic data held and maintained by Quest Leisure.

Data usage

We do not use any of our held data for anything other than direct contact to the company itself. Examples of this are sending invoices and statements to retailers. Or getting in contact with a supplier in order to facilitate requests. We do not pass any of the data held onto third parties for any reason.

We do not send any unsolicited email or bulk email etc. If this changes it will be used in conjunction with the opt in checks listed below.

The only end consumer data we hold is that given over in the registration form for various products. This data is never used for bulk or unsolicited emails

Opt-in data update.

During 2018 we updated our database with an opt in selection where we will check every single contact and request that they opt into a special offer email group that we will then possibly use at a later date. This data was further checked and updated during October 2020, where email addresses and contact information was again verified by our sales team contacting each customer direct. The 2020 update lead to a separate 'special offers' email address(s) being set up for customers who agreed to have special offer emails sent out to them, so in the future only these 'special offer emails' will be used for special offer and other bulk emails.

Data housing

All data accessed directly by Quest Leisure staff and all Quest Leisure services and software is held in house and not with any third parties. This ensures we maintain full control over all our data and can apply all the required levels of security and access to this data ourselves without having to reply on any third parties. Since 2019 we have also selected

Wasabi as our offline/cloud backup partner (see backups section below). They conform to all GDPR requirements and adhere to all required security best practices. More details on their GDPR statement can be found here : <https://wasabi.com/gdpr-white-paper/>

Access to data

All access to data is limited to password protected user id. Each user has their own user id with their own passwords which follow the windows standard hard to guess formats. These passwords are changed every 30 days. Each user is only given the access that they are required for their role.

Backups

All data is backed up everyday, and a copy of this data is replicated to an online cloud backup hosted by Wasabi. Access to this offsite backup is password protected and encrypted to ensure only we have access to it and access is limited to Adam Hughes and Lou Brown, there is no access to the data for staff at Quest Leisure. We also keep a local backup copy on NAS drives with internal access only (no external access).

Security

We have both hardware and software firewalls restricting access to the internal servers. All of which are maintained in house with no third party access. They are kept up to date with all the latest firmware and software patches etc.

Ability to remove data if requested

We have upgraded our main company software (Sap Business One) to ensure we have the ability to remove any personal data if required. We have complete access to all our own data and have the ability to anonymize this data if required. This we would do, on a per-request basis. These requests can come into our organization by any means but will always be double checked with known contacts before implementing.

COMFORT AND STYLE

RANGE FEATURES

The Quest Elite® Bordeaux Pro range is all about comfort and style.

They use the high performance materials, with a premium padding giving you maximum comfort. This is combined with a stunning style to give you a range that performs as good as it looks.

QTex Padded 2D mesh Fabric

This is a premium stretch fabric with added levels of comfort. It combines great levels of cushioned comfort with extra padding for extra comfort along with lasting durability and great weather resistance allowing it to last longer than its rivals. First comes the amazing level of comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric. On top of all this comfort the fabric is also padded which gives you even greater levels of comfort. These chairs really are made for comfort.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is U.V. resistant so offers great resistance to the sun's rays, which also helps it last longer as it takes longer for the sun's rays to damage the fabric. The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. This gives the material excellent weather resistance helping the chair to last longer.

Exclusive Slide Out Side Table

All items in this range have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

Premium Aluminium Frame

This is a premium aluminium frame. First the base material is a premium grade aluminium, selected for its light weight, durability and weather resistance, giving you the best of both worlds, both low weight and great weather resistance. The frame is made even better thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

LIGHTWEIGHT PERFORMANCE

RANGE FEATURES

The Quest Elite® Vienna Pro range is all about lightweight performance.

They use the high performance materials, with a premium lightweight frame to give you an extremely comfortable chair, high on style and very lightweight. The use of the all weather fabric and aluminium frames also gives you excellent performance in any weather. The lounge bed also features the padded version of the QTex 2D mesh fabric.

QTex 2D mesh Fabric

This is a premium stretch fabric which combines great levels of cushioned comfort with long lasting durability and great weather resistance allowing it to be used in any weather. First comes the comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is U.V. resistant so offers great resistance to the sun's rays, which also helps it last longer as it takes longer for the sun's rays to damage the fabric.

The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. When it rains the majority of water runs through the material which means you are only left with a small amount on the fabric which dries quickly. This gives the material excellent weather resistance and means it can be used in any weather.

Exclusive Slide Out Side Table

All items in this range (except the swing) have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

Premium Aluminium Frame

This is a premium aluminium (the recline uses a hybrid steel and aluminium) frame. First the base material is a premium grade aluminium, selected for its light weight, durability and weather resistance, giving you the best of both worlds, both low weight and great weather resistance. The frame is made even better thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

STYLE AND DURABILITY

RANGE FEATURES

The Quest Elite® Ragley Pro range is all about style and durability.

They use the high performance materials, with a premium electro plated steel frame to give you an extremely comfortable chair, high on style with added durability.

QTex 2D mesh Fabric

This is a premium stretch fabric which combines great levels of cushioned comfort with long lasting durability and great weather resistance allowing it to be used in any weather. First comes the comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is U.V. resistant so offers great resistance to the suns rays, which also helps it last longer as it takes longer for the suns rays to damage the fabric.

The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. When it rains the majority of water runs through the material which means you are only left with a small amount on the fabric which dries quickly. This gives the material excellent weather resistance and means it can be used in any weather.

Exclusive Slide Out Side Table

All items in this range have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

Premium Steel Frame

This is a premium steel (the recline uses a hybrid steel and aluminium) frame. First the base material is a very high quality steel which is used for its strength. Due to its quality and strength the thickness of the frame has been lowered to bring the weight down without having to sacrifice strength and durability. The frame is then made even better, thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

PREMIUM PACK AWAY FURNITURE

RANGE FEATURES

The Quest Elite® Autograph range is a premium range of pack away furniture.

They use the premium materials to give maximum comfort alongside pack and fold away frames to make the pack size smaller. They are the perfect solution for those after small pack sizes but do not want to compromise on comfort.

QTex Weave Fabric

This is a premium hard wearing fabric which comes in different levels of padding and comfort. The material is extremely durable and easy to clean helping it last longer. The base material is a very high quality 600D polyester, but it has a modern PU coating which gives it extra durability and protection from the sun's rays without lowering the comfort levels of the soft fabric. This coating helps the chair to look better and last longer than its cheaper rivals. The fabric also has three levels of padding, Quilted which is the thinnest of the padding and helps keep the pack size and weight down. Then padded, which gives added comfort and finally extreme padded which gives the absolute maximum of comfort available.

Pack Away Frames and Carry Bags

Every chair in this range (except the Surrey) has a pack away frame to make the pack size smaller. These frames simply collapse and fold into a small pack size making them easier to carry and store away when not in use. The Surrey (the directors chair) simply folds flat allowing it to be carried and stored easily when not in use. They all (except the Surrey) also come complete with their own colour coded carry bag which makes them even easier to store away but also offers extra protection for your chair helping them to last even longer.

Premium Aluminium and Steel Frames

All items in this range have the same premium, pack away frames. They are a mixture of aluminium and steel, but all feature the premium electro plated coating which gives added durability and protection against the weather helping them last longer. All the frames pack away to allow for smaller pack sizes, which makes them easier to store away.

Then they marry all this with added style and function to create the pure luxury of the avantgarde range.

Sunbrella Fabric

The Avantarde range uses the brand new amazing Sunbrella fabric. It is made for the outdoors and can handle anything and everything thrown at it. Firstly it is extremely durable and made to be used outdoors, no matter the weather. It has an extremely high wear factor. The fabric is water and dirt repellent, which means that water will not soak into the padding or the fabric so it will dry quicker and is resistant to mould and water damage. The dirt repellent nature also means that it is resistant to marks and dirt is easily brushed off the fabric, which again helps against mould, wear and tear. The fabric has an almost cashmere soft touch to it, which means it is far more comfortable to use than others, especially when used against bare/naked skin. The fabric is also breathable which means when the weather is hot it is far more comfortable in the chair as it allows your skin to breathe and allows air flow to help keep you cool. The fabric is a stretch fabric which means that it has a natural give to it, which adds to the comfort, but also helps improve the durability and longevity of the chair as the fabric will bounce back into shape and will not sag like its non-stretch rivals.

DuraLight Frames

DuraLight is another unique material for Westfield Outdoors. It is a magnesium and aluminium alloy which is lighter and stronger than aluminium. This makes it the best frame available as it is lighter and stronger than its rivals. The alloy is also weather proof so will last longer. The incredible light weight nature of the frame allows the Avantgarde Noblesse chair to be the lightest, fully padded chair on the market.

Class Leading - European Wide Warranty

Every chair in the Westfield range comes with a class leading 5 year warranty. The very best available. It gives you the very best cover possible, for the very best furniture possible. This is not only a class leading warranty, but also a European wide warranty, giving you extra cover and support when abroad.

If you are abroad in the European Union and you have an issue with your Westfield product, your issue will be looked at in the country you are located in. Unlike their rivals you do not have to wait to get home before getting support, Westfield will look into your issue in the country you are in and attempt to resolve it there and then, allowing you to continue enjoying your break, whilst the issue with your Westfield product is resolved.

Westfield

Top Quality Concept

LUXURY AND UNRIVALED PERFORMANCE

RANGE FEATURES

The **Westfield® Performance** range is all about durability and strength. It uses all the very best materials , including the exclusive **Lifestyle Cashmere touch** fabric and **DuraLite®** frames, combined with the very best production technique, but takes it further with added features and materials to produce a range that is rock steady, extremely durable and built to out last everyone else.

DuraGore 3D Mesh Fabric

The Performance ranges from Westfield Outdoors have a unique fabric called DuraDore 3D mesh. It is a padded fabric that is made for the outdoors. Firstly it is a stretch material that is more durable than other materials so will last longer and perform better. The stretch nature of the fabric also means that it is more comfortable than non-stretch fabric and will last longer as it will give when used and bounce back when not used. It is better against UV damage thanks to its natural structure and the advanced UV coating.

The other unique feature about it is that it has a porous fibreglass pad, rather than a standard foam one. This means that the base fabric,, plus the underlying padding is porous it allows moisture through rather than soaking it up. This in turn means that even if the chair is left out in the rain it will dry within 5 minutes. The porous nature also means that it is breathable making it much more comfortable on hot days as well, so this is the very best padded fabric available, built for any weather.

DuraLight Frames

DuraLight is another unique material for Westfield Outdoors. It is a magnesium and aluminium alloy which is lighter and stronger than aluminium. This makes it the best frame available as it is lighter and stronger than its rivals. The alloy is also weather proof so will last longer. The incredible light weight nature of the frame allows the Avantgarde Noblesse chair to be the lightest, fully padded chair on the market.

Class Leading - European Wide Warranty

Every chair in the Westfield range comes with a class leading 5 year warranty. The very best available. It gives you the very best cover possible, for the very best furniture possible. This is not only a class leading warranty, but also a European wide warranty, giving you extra cover and support when abroad.

Quest Hygrove

HIGH QUALITY AND HIGH PERFORMANCE

RANGE FEATURES

The Quest Hygrove & Winchester ranges are a high quality range of textilene furniture.

The ranges combines the weatherproof nature of textilene and lightweight with a modern and striking design, topped of with the use of a heavier gauge, premium fabric to give you a highly durable range of furniture excellent for use in all weather.

Heavy Gauge Textilene

Textilene is an all weather fabric. It can be used in wet or dry and dries extremely quickly. It is also highly durable which helps it last longer. The fabric is also breathable giving added comfort when the weather is hot. The Winchester range uses a heavier gauge of textilene to not only look better, but perform better and last longer. The fabric is done in a striking pinstripe effect chequered pattern which elevates it above it rivals in looks as well as performance.

Coated Frame

The steel frames on the Winchester range are strong ensuring they are up to the job, but still lightweight thanks to their thinner design. This mix of design and strength gives that extra touch of class, whilst keeping the weight down and keeping the underlying strength of the natural material. The frame is also powder coated in a flat black which helps complement the classic and modern finishes of the fabric giving the range its modern, striking design.

Quest Childrens

FUN, LIGHTWEIGHT AND SAFETY FEATURES

RANGE FEATURES

The Children's range is all about fun, lightweight, easy to clean and added safety.

The children's range is a fun and easy to use furniture range. They are all lightweight folding chairs so children can carry them, themselves, making them feel more like their own.

Easy Clean Fabric

The fabric used in the children's range feature a coating which not only helps protect the fabric from U.V. rays but also makes them easier to clean, and maintain..

Safety Features

All of the chairs feature safety locks to ensure the chairs are locked in position and do not close when not wanted and help ensure no trapped fingers caused by chairs folding away when picked up etc.

Lightweight

Every chair in this range is so light they can be easily picked up by children.

They pack down to small size and come with their own carry bags (except the moon chairs), which makes them even easier to carry.

So much so we have found that children like to carry them themselves as it adds to the feeling that they really are their chairs and not somebody else's.

Quest JetStream

STRENGTH AND DURABILITY

RANGE FEATURES

The Quest JetStream range is a high quality range of blow mould furniture.

This range is all about strength, durability and weather resistance. They are all extremely strong and feature the 100% weatherproof solid tops giving you the very best weather resistance possible.

Table Tops and Seats

The table top and seats in the JetStream range are a premium solid resin top. They have a wood effect pattern on them making them look nicer and more interesting than the plain tops. The pattern is light enough not to cause any issues with the stability of items on the tops and finishes the item with a professional and pleasing look. They are also completely weather proof and extremely strong. They are built to last and do so with ease. The solid nature of the tops gives them more strength than their non-solid rivals.

Strength & Weather Resistance Pack Sizes

The frames in the JetStream range are a high quality, powder coated steel. They are made from steel to continue the strength of the table tops and seats throughout the product ensuring it is stronger than its rivals. The powder coating on the frame gives the steel its weather resistance and finished the look of the product by complimenting the table top and seats. The weather resistant nature of the coating, coupled with the strength of the steel and the solid nature of the tops ensures these products are built to last.

All the items in the JetStream range fold away flat making them easier to store when not in use.

The Grassmoor table and bench set takes that one step further by allowing the folded away benches to sit inside the table making the pack size even smaller.

The Skiddaw and Helvellyn tables also fold in half to form their own carry case and again making the pack size even smaller.

F0104 : Grassmoor

- Table size: 108 x 60 x 71 cm. • Bench size: 89 x 21 x 41 cm.

CellarDine

Cellardine stand deal

CellarDine was set up in 1998 to design and develop original and innovative products for the retail trade, where we started with just one product; the Therm au Rouge red wine warming sleeve. As a family business we design all products from pen to paper, looking to create exciting new innovation which is useful, functional and affordable.

We have put together a POS stand plus a number of the cellardine products which will give you not only an excellent looking selection of products, but also a great selection of their best selling lines, ready to go.
