---------	----

Welcome to MQL.

MQL is the brand new corporate identity for the merged companies of Miriad Products Limited and Quest Leisure. The companies joined forces 2 years ago and we have been busy merging our processes, products and taking the best practices from both companies and combining them to form our new bigger and better company.

We would like to take this time to thank you for your custom and are really excited in what we can now offer you from MQL.

We still have our class leading brands and products which we develop ourselves, but we now have extra products from the outdoor leisure trade which we can offer you, plus improved services, information, help and support.

Thanks to our combined strength we now offer a full range of products online, so you can purchase items online from your desk or even using our dedicated mobile app from your phone.

We have improved our warehouse offering and data processing so we can offer you more in the way of servicing, product information, account information, special offers, automated orders and a whole lot more.

In summary we would like to thank you for your custom and we are looking forward to extending our partnership with you.

Yours Sincerely

QUEST ELITE® Bordeaux Pro

RANGE FEATURES

The Quest Elite® Bordeaux Pro range | Comfort and Style

They use the high performance materials, with a premium padding giving you maximum comfort. This is combined with a stunning style to give you a range that performs as good as it looks.

QTEX 2D PADDED FABRIC

This is a premium stretch fabric with added levels of comfort. It combines great levels of cushioned comfort with extra padding for extra comfort along with lasting durability and great weather resistance allowing it to last longer than its rivals. First comes the amazing level of comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric. On top of all this comfort the fabric is also padded which gives you even greater levels of comfort. These chairs really are made for comfort.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is UV resistant so offers great resistance to the sun's rays, which also helps it last longer as it takes longer for the sun's rays to damage the fabric. The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. This gives the material excellent weather resistance helping the chair to last longer.

EXCLUSIVE SLIDE OUT SIDE TABLE

The majority of items in this range have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

PREMIUM ALUMINIUM FRAME

This is a premium aluminium frame. First the base material is a premium grade aluminium, selected for its light weight, durability and weather resistance, giving you the best of both worlds, both low weight and great weather resistance. The frame is made even better thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

QUEST ELITE®

Vienna Pro

RANGE FEATURES

The Quest Elite® Vienna Pro range | Lightweight performance

They use the high performance materials, with a premium lightweight frame to give you an extremely comfortable chair, high on style and very lightweight. The use of the all weather fabric and aluminium frames also gives you excellent performance in any weather. The lounge bed and double snug also features the padded version of the QTex 2D mesh fabric.

QTEX 2D MESH FABRIC

This is a premium stretch fabric which combines great levels of cushioned comfort with long lasting durability and great weather resistance allowing it to be used in any weather. First comes the comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is U.V. resistant so offers great resistance to the sun's rays, which also helps it last longer as it takes longer for the sun's rays to damage the fabric.

The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. When it rains the majority of water runs through the material which means you are only left with a small amount on the fabric which dries quickly. This gives the material excellent weather resistance and means it can be used in any weather.

EXCLUSIVE SLIDE OUT SIDE TABLE

The majority of items in this range have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

PREMIUM ALUMINIUM FRAME

This is a premium aluminium frame. First the base material is a premium grade aluminium, selected for its light weight, durability and weather resistance, giving you the best of both worlds, both low weight and great weather resistance. The frame is made even better thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

RANGE FEATURES

The Quest Elite® Ragley Pro range | Style and durability

They use the high performance materials, with a premium electro plated steel frame to give you an extremely comfortable chair, high on style with added durability.

QTEX 2D MESH FABRIC

This is a premium stretch fabric which combines great levels of cushioned comfort with long lasting durability and great weather resistance allowing it to be used in any weather. First comes the comfort. The base fabric is cushioned so it is softer and more comfortable than its rivals. On top of this cushioned comfort the material is breathable thanks to its porous nature. This means that it is also more comfortable on hot days as your skin can breathe when sitting on it allowing you to stay cooler. The stretch in the fabric also means that you get extra comfort from the give in the fabric.

Next the fabric is very durable. It is naturally hard wearing giving it a long lasting lifespan. The stretch nature of the material means that it bounces back after use and will stay taught for longer than its cheaper rivals. It is U.V. resistant so offers great resistance to the sun's rays, which also helps it last longer as it takes longer for the sun's rays to damage the fabric.

The fabric is also quick dry thanks to its porous nature and the water repellent outer coating of the fabric. When it rains the majority of water runs through the material which means you are only left with a small amount on the fabric which dries quickly. This gives the material excellent weather resistance and means it can be used in any weather.

EXCLUSIVE SLIDE OUT SIDE TABLE

All items in this range have the exclusive Quest Elite slide out side table. This is an exclusive side table that is simply slide out from underneath the seat of the chair and locks in place. This gives you the perfect side table at the perfect height. When you don't want the table you can simply slide it away so it doesn't get in the way.

PREMIUM STEEL FRAME

This is a premium steel (the recline uses a hybrid steel and aluminium) frame. First the base material is a very high quality steel which is used for its strength. Due to its quality and strength the thickness of the frame has been lowered to bring the weight down without having to sacrifice strength and durability. The frame is then made even better, thanks to its premium electro-plated coating. This means it gets an extremely high quality coating, which is more even than its powder coated rivals, more durable and will help keep the frame looking new for longer.

QUEST ELITE® Autograph

RANGE FEATURES

The Quest Elite® Autograph range | Premium pack away furniture

They use the premium materials to give maximum comfort alongside pack and fold away frames to make the pack size smaller. They are the perfect solution for those after small pack sizes but do not want to compromise on comfort..

QTEX WEAVE FABRIC

This is a premium hard wearing fabric which comes in different levels of padding and comfort. The material is extremely durable and easy to clean helping it last longer. The base material is a very high quality 600D polyester, but it has a modern PU coating which gives it extra durability and protection from the sun's rays without lowering the comfort levels of the soft fabric. This coating helps the chair to look better and last longer than its cheaper rivals. The fabric also has three levels of padding, Quilted which is the thinnest of the padding and helps keep the pack size and weight down. Then padded, which gives added comfort and finally extreme padded which gives the absolute maximum of comfort available.

PACK AWAY FRAMES AND CARRY BAGS

Every chair in this range (except the Surrey) has a pack away frame to make the pack size smaller. These frames simply collapse and fold into a small pack size making them easier to carry and store away when not in use. The Surrey (the directors chair) simply folds flat allowing it to be carried and stored easily when not in use. They all (except the Surrey) also come complete with their own colour coded carry bag which makes them even easier to store away but also offers extra protection for your chair helping them to last even longer.

PREMIUM ALUMINIUM AND STEEL FRAMES

All items in this range have the same premium, pack away frames. They are a mixture of aluminium and steel, but all feature the premium electro plated coating which gives added durability and protection against the weather helping them last longer. All the frames pack away to allow for smaller pack sizes, which makes them easier to store away.

Westfield

Top Quality Concept

RANGE FEATURES

The **Westfield® Avantgarde** range is pure luxury. This is the very highest quality folding furniture possible. It uses all the very best materials , including the exclusive **DuraGore 3D mesh** fabric and **DuraLite®** frames, combined with the very best production techniques to give unrivalled performance. Then they marry all this with added style and function to create the pure luxury of the avantgarde range.

DURAGORE 3D MESH FABRIC

The Performance ranges from Westfield Outdoors have a unique fabric called DuraDore 3D mesh. It is a padded fabric that is made for the outdoors. Firstly it is a stretch material that is more durable than other materials so will last longer and perform better. The stretch nature of the fabric also means that it is more comfortable than non-stretch fabric and will last longer as it will give when used and bounce back when not used. It is better against UV damage thanks to its natural structure and the advanced UV coating.

The other unique feature about it is that it has a porous fibreglass pad, rather than a standard foam one. This means that the base fabric, plus the underlying padding is porous it allows moisture through rather than soaking it up. This in turn means that even if the chair is left out in the rain it will dry within 5 minutes. The porous nature also means that it is breathable making it much more comfortable on hot days as well, so this is the very best padded fabric available, built for any weather.

DURALIGHT FRAMES

DuraLight is another unique material for Westfield Outdoors. It is a magnesium and aluminium alloy which is lighter and stronger than aluminium. This makes it the best frame available as it is lighter and stronger than its rivals. The alloy is also weather proof so will last longer. The incredible light weight nature of the frame allows the Avantgarde Noblesse chair to be the lightest, fully padded chair on the market.

CLASS LEADING - EUROPEAN WIDE WARRANTY

Every chair in the Westfield range comes with a class leading 5 year warranty. The very best available. It gives you the very best cover possible, for the very best furniture possible. This is not only a class leading warranty, but also a European wide warranty, giving you extra cover and support when abroad.

If you are aboard in the European Union and you have an issue with your Westfield product, your issue will be looked at in the country you are located in. Unlike their rivals you do not have to wait to get home before getting support, Westfield will look into your issue in the country your are in and attempt to resolve it there and then, allowing you to continue enjoying your break, whilst the issue with your Westfield product is resolved.

Westfield

Top Quality Concept

RANGE FEATURES

The **Westfield® Performance** range is all about durability and strength. It uses all the very best materials, the exclusive **DuraGore 3D mesh** fabric and **DuraLite®** frames, combined with the very best production techniques to give unrivalled performance, producing a range that is rock steady, extremely durable and built to out last everyone else.

DURAGORE 3D MESH FABRIC

The Performance ranges from Westfield Outdoors have a unique fabric called DuraDore 3D mesh. It is a padded fabric that is made for the outdoors. Firstly it is a stretch material that is more durable than other materials so will last longer and perform better. The stretch nature of the fabric also means that it is more comfortable than non-stretch fabric and will last longer as it will give when used and bounce back when not used. It is better against UV damage thanks to its natural structure and the advanced UV coating.

The other unique feature about it is that it has a porous fibreglass pad, rather than a standard foam one. This means that the base fabric, plus the underlying padding is porous it allows moisture through rather than soaking it up. This in turn means that even if the chair is left out in the rain it will dry within 5 minutes. The porous nature also means that it is breathable making it much more comfortable on hot days as well, so this is the very best padded fabric available, built for any weather.

DURALIGHT FRAMES

DuraLight is another unique material for Westfield Outdoors. It is a magnesium and aluminium alloy which is lighter and stronger than aluminium. This makes it the best frame available as it is lighter and stronger than its rivals. The alloy is also weather proof so will last longer. The incredible light weight nature of the frame allows the Avantgarde Noblesse chair to be the lightest, fully padded chair on the market.

CLASS LEADING - EUROPEAN WIDE WARRANTY

Every chair in the Westfield range comes with a class leading 5 year warranty. The very best available. It gives you the very best cover possible, for the very best furniture possible. This is not only a class leading warranty, but also a European wide warranty, giving you extra cover and support when abroad.

If you are aboard in the European Union and you have an issue with your Westfield product, your issue will be looked at in the country you are located in. Unlike their rivals you do not have to wait to get home before getting support, Westfield will look into your issue in the country your are in and attempt to resolve it there and then, allowing you to continue enjoying your break, whilst the issue with your Westfield product is resolved.

NOTES

Page left intentionally blank - use it for your own notes

RANGE FEATURES

The Children's range is all about fun, lightweight, easy to clean and added safety.

The children's range is a fun and easy to use furniture range. They are all lightweight folding chairs so children can carry them, themselves, making them feel more like their own.

SP2035 : UNICORN MOON CHAIR

- PU Coated polyester fabric • Powder coated steel frame
- Size: 53 x 40 x 47 cm. • Folded: 53 x 8 x 50 cm. • Seat height: 22 cm.
- Seat width: 28 cm. • Weight: 1 kg. • Max Load: 35 kg.

SP2037 : DINOSAUR MOON CHAIR

- PU Coated polyester fabric • Powder coated steel frame
- Size: 53 x 40 x 47 cm. • Folded: 53 x 8 x 50 cm. • Seat height: 22 cm.
- Seat width: 28 cm. • Weight: 1 kg. • Max Load: 35 kg.

Easy Clean Fabric

The fabric used in the children's range feature a coating which not only helps protect the fabric from U.V. rays but also makes them easier to clean, and maintain..

Safety Features

All of the chairs feature safety locks to ensure the chairs are locked in position and do not close when not wanted and help ensure no trapped fingers caused by chairs folding away when picked up etc.

Lightweight

Every chair in this range is so light they can be easily picked up by children. They pack down to small size and come with their own carry bags (except the moon chairs), which makes them even easier to carry. So much so we have found that children like to carry them themselves as it adds to the feeling that they really are their chairs and not somebody else's.

SP2024 : UNICORN GARDEN SET

- PU Coated polyester fabric
- Powder coated steel frame
- Chair Size: 36 x 38 x 50 cm.
- Folded: 36 x 49 x 6 cm.
