General Use

Failure to follow the general use instructions below could lead to damage to the gazebo or injury to your person. Always read and follow these instructions when using the product.

- Always ensure that all the bolts and screws are fully tightened before use.
- Always ensure all legs remain in contact with the ground and take extra care when using the gazebo on uneven ground as this can lead the gazebo to move about.
- Always secure the gazebo to the ground using the legs before use as failure to do so could lead to the gazebo being moved or upended by the weather or other external influences.
- The screws and bolts of this gazebo could become loose over time, so they should be checked at regular intervals if the Gazebo is left up for extended periods.
- We recommend taking the roof panels out if the gazebo is going to be left up when not in use. This helps maintain the roof panels and will help the product last longer..
- Please retain all information for further reference

Care and Cleaning Instructions

Never use and harsh or abrasive cleaners or brushes when cleaning this product as the frame and fabric may be damaged when doing so. Never fold and put the sides away when wet as this can trap water in them, which can lead to mould and mildew build up.

- **Fabric** : We recommend using a dedicated fabric cleaner for the fabric, if one is not available simply warm soapy water. After it has been cleaned, rinse with clean water to make sure there's no soap or cleaner left inside the fabric. Once rinsed allow the product to dry naturally before folding away and storing.
- **Frame** : First allow any dirt to dry and brush with a soft brush to remove loose dirt. Once this is done wipe the frame down with warm soapy water and a soft cloth. Once cleaned allow to dry naturally before storing away.
