AN INSPIRATIONAL HANDS-ON EXHIBITION THAT COMBINES ARCHITECTURE AND DESIGN IN A LIVELY, CREATIVE SPACE.

Towers of Tomorrow with LEGO Bricks partners up some of the world's most dazzling and innovative skyscrapers with the world's most popular building brick.

The exhibit features astonishing skyscrapers from North America, Asia and Australia constructed in breathtaking architectural detail by **Ryan McNaught, one of only 12 LEGO certified professionals in the world.** McNaught and his award-winning team of builders have used more than half a million LEGO bricks and devoted over 2000 hours to build the structures featured in the exhibition.

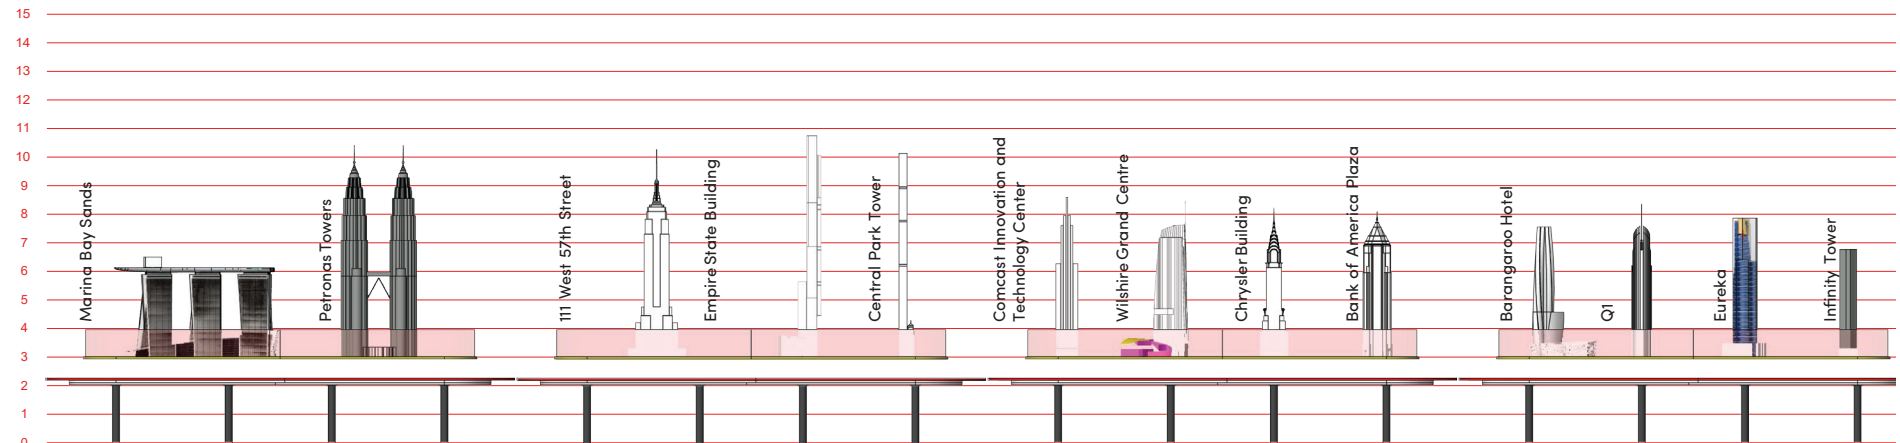

Visitors will be inspired to create their own 'towers of tomorrow' with over 200,000 loose LEGO bricks available in hands-on construction areas. Young and old will be limited only by their imagination as they add their creations to a steadily rising futuristic LEGO metropolis inside the exhibition.

→ VENUE REQUIREMENTS

Sydney Living Museums brings our museums to life through a dynamic and diverse program of exhibitions, research and events such as walks, talks and tours so that our visitors can experience Sydney's past as if they had lived it themselves.

Since 1993, Sydney Living Museums has toured 40 exhibitions to 95 venues, seen by more than 1.8 million people. Our traveling exhibitions enable us to reach wider audiences, stimulating public interest in history, architecture and design.

Their commitment to the audience is to maintain the museums, landscapes and collections with integrity whilst presenting the narrative of each in contemporary, compelling and relevant ways. We bring a considered and thoughtful approach to revealing the contemporary currency in places and things, and providing pleasure and enthusiasm for learning.

Towers of Tomorrow with LEGO Bricks is produced by Sydney Living Museums and toured internationally by FLYING FISH
