

'TIME OF THE DINOSAURS' a fun & educational journey into the history of dinosaurs!

An adventure for the whole family with a story presented for three different ages: 3 to 8 years, 8 to 12 years and for adults.

A WALK AMONG THE GIANTS!

The realistic technology enables the giant creatures to move and roar. Different species are being presented to the public, including Triceratops, Brachiosaurus and the famous Tyrannosaurus Rex. The sets for these impressive specimens reflect the environment in which they evolved millions of years ago. Visitors are therefore immersed in the vanished world of the great lizards.

The visitors can enjoy a number of fun activities: take a family picture in the customized **photobooth**, have a photo hiding in a dinosaur egg, climb on to a moving dinosaur or dance with the **Dino Dance** programme.

In addition to these activities, the exhibition also hosts a **virtual reality experience** enabling young adventurers to simulate a flight on the back of a dinosaur and observe the ecosystem in which these giants evolved.
