

A vertical poster featuring a deep blue night sky filled with stars. A bright meteor streaks diagonally across the upper half. At the bottom, the silhouette of a person stands on a grassy horizon, looking up at the stars.

STARDUST AND YOU

DISCOVERING WHERE THE ELEMENTS OF LIFE COME FROM

STARDUST & YOU

Stardust and You is a breathtaking and dynamic journey through the history of the universe that fosters a sense of wonder and appreciation for the interconnectedness of life and what it is made of.

Stardust and You is a breathtaking, dynamic journey through the history of the universe. Visitors experience the wonder of our universe, as well as the interconnectedness of all life and what it's made of.

Stardust and You approaches complicated topics for young audiences by dynamic visual and audio storytelling, making the exhibition both easy to understand and fun!

The exhibition uses philosophy as a looking glass into scientific topics; scaling from the molecular level to the vastness of our universe. Each step of a visitor's journey includes breathtaking visuals, directional soundscapes, and tactile experiences to engage all learning styles.

Stardust & You is a touring exhibition produced and toured internationally by FLYING FISH.

KEY EXPERIENCES

- Discover 9 key moments in the history of the universe through a visually dynamic journey with an ethereal soundscape
- Learn about the elements of life and where we come from
- Dive deep into science with tactile interactives at each key moment
- Develop an appreciation for the universe and its interconnectedness by exploring cosmology interpreted for young children
