

# Object decision tree

1. Is it a 'Star Object'?  
How essential is the object to the narrative of the show. **No** → Review once all essential objects confirmed.

**Yes**

2. Is the object available? **No** → Go to question 10.

**Yes**

3. Does the object need to travel? **No** → **IN**

**Yes**

4. Does the object exist anywhere else?  
(i.e. are there multiple versions / an alternative lender?)

**No**    **Yes**

**A**

**B**

Use Impact Model to calculate and compare travel CO2e

5. What is the travel carbon footprint?    **A**.....CO2e    **B**.....CO2e

6. What is the £cost of travel?    **A**.....    **B**.....

7. Is the carbon worth it? \* **No** → **OUT**

**Yes**

8. Is inclusion of the object in budget? **Yes** → **IN**

**No**

9. Can travel costs be shared with other objects? **Yes** → **IN**

**No**

10. Can the object be represented in another way or reproduced locally? **No** → **OUT**

**Yes**

11. What is the production carbon footprint?

Use Impact Model to calculate production CO2e    **C**.....CO2e

Is the carbon worth it? \* **No** → **OUT**

**Yes**

**IN**
