PROJECT  
HOLOCENE

## EXHIBIT CATALOG

Current available illuminated works  
for indoor/outdoor exhibits

# MISSION

The project aims to share a message of conservation. The paintings show the beauty and fragility of the species represented & help build awareness around the importance of protecting biodiversity. A wide variety of endangered insects, birds, reptiles, aquatic creatures & animals are represented.

PROJECT  
HOLOCENE

## DAY/NIGHT

The traveling exhibit features large, illuminated images of many species of endangered animals. The illuminated works can be seen day or night. In darkened space the back lit illumination shows the many layers of paint & texture shining through the painting. The exhibit has been on display at zoos and museums around the world.

## INDOOR/OUTDOOR

In indoor spaces the lighting can be controlled to create a consistent, captivating display. In outdoor spaces the pieces can be created at any size (up to 50 ft tall). The flexibility of the exhibition allows for an impressive showpiece display at any event or venue.

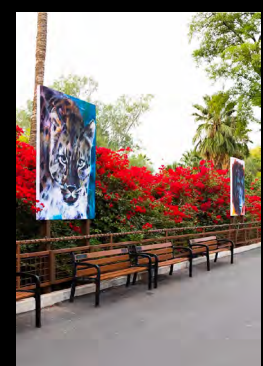

## CUSTOMIZABLE

The pieces can be customized to the exhibit space and are flexible based on display requirements. You can select from over 70 paintings that are printed and then hand painted to create unique mixed media artwork.

## EXHIBIT INFO

The works are rented for 6 month exhibitions, each exhibit is unique and customized based on paintings selected and available space. The exhibit is very simple to install, and can be mounted on any interior/exterior wall.
