opposites

exhibition project

opposites

► The exhibition for children from 2 to 7 years old

Children take a leap into the world of opposites, an unusual village that features contrasting visual, sound and tactile perceptions.

THE DISCOLOURED HOUSE

An area that plays on the opposites linked to colours and light (dark-light, opaque-transparent...).

THE ORGANIZED BAZAAR

A store where everything is tidy or disordered (order-disorder, similar-different...).

THE PARK IN THE SKY

An upside-down square, in which the furniture is on the ceiling (upside-down, top-bottom).

THE STRANGE SCHOOL

An apparently normal classroom with a multitude of «flawed» details, absurd and eccentric elements, incoherent with the idea we have of it (hard-soft, balanced-unbalanced...).

THE STREET OF THE MINI-GIANTS

An area playing on the variations of sizes (small-large, heavy-light...)
